Waste

Solid waste (garbage)

For cruise vessels The Port of Aarhus will offer a container (12 m³) on the berth free of charge. 4 tonnes of waste are free of charge, and additional waste are paid for by the vessel. The delivery/collection of additional containers are paid for by the vessel as well. The ordering/delivery/collection of the containers will be coordinated by the vessel's agent.

The vendor for waste disposed in containers is Johannes Soerensen, telephone +45 86241288. Please contact the vendor directly regarding prices for disposal hazardous waste (incinerator ash, fluorescent bulbs, fireworks, medicine waste etc. etc.).

Waste notification form can be found on our website.

Hazardous waste

Please contact the port of Aarhus on tel. +4586133266 or e-mail maritim@portofaarhus.dk for information regarding hazardous waste disposal.

Liquid waste

Liquide waste can be deposited directly into our receiving wells at berth 129 and 503.

Berth 129 has a maximum receiving speed of 80-100 m³/hour.

Berth 503 has a maximum receiving speed of 30m³/hour.

Nordic Oily Waste and CTC A/S can provide, assemble, connect/disconnect pumping hoses, connection flanges etc. on behalf of ships for a fee. The ship must still oversee the pumping.

To order pumping hoses etc., contact

Nordic Oily Waste on tel. +4559578560 or e-mail info@nowaste.dk

CTC A/S on tel. +4586196655 or e-mail mic@ctcas.com

Contact them in good time and at least 24 hours before collection. Remark: A surcharge is applied outside of normal working hours (weekdays from 7:00-15:00).
