

Building the Future

Project Name: Digital Bond Accelerator

Main Objective: Organizational and Process innovation

Intervention Region: North

Beneficiary Entity: Colquimica S. A

Approval date: 25-07-2025

Start date: 01-09-2025

Project End Date: 30-06-2026

Total Eligible Cost: 460.000,00€

European Union Financial Support: 299.000,00€

Project Objectives:

We are implementing a digital transformation project aimed at restructuring internal processes and fostering innovation across the organization. Through the integration of advanced technologies such as SAP S/4HANA, SAP Fiori, and Salesforce, this project seeks to enhance operational efficiency and promote more agile collaboration between teams.

The focus is on the digitization and optimization of key processes, with a direct impact on product management, market analysis, and continuous quality improvement. In the medium term, the goal is to consolidate information into a centralized system, enabling faster and more informed decision-making, supported by artificial intelligence.
