

THE PATH TO GRADUATION

starts earlier than you think.

The decisions students make in middle school shape everything that comes next. Make sure they're guided by the right plan and data you can trust.

- ✓ **See the full picture.**
 Bring SIS, assessment, and CTE data into a single view, so every decision is based on a complete, connected picture.
- ✓ **Start the plan sooner.**
 Build 4-year graduation plans in middle school that connect to real high school courses, credits, and pathways.
- ✓ **Bring families in early.**
 Give students and families visibility into graduation requirements, course plans, and future goals with built-in feedback and signatures.

Middle school isn't too early—it's where outcomes are set.

You help students make the right choices early. Pathways® helps you guide them with clarity and confidence.

- **One connected foundation**
All your data—SIS, assessments, CTE—working together, not in silos
- **Plans that carry forward**
Purposeful planning in middle school that informs high school coursework
- **Clearer direction for every student**
Align interests, coursework, and goals before schedules are locked
- **Stronger conversations with families**
Shared visibility builds alignment and trust early on

Start earlier. Stay aligned.

Guide every student with confidence. When students start with clarity, everything that follows gets easier.
