

Job Title: Production Technician, AnTech Ltd

Location: Onsite at our AnTech Office, Airport Business Park, Exeter

Reporting to: Head of Production

Contract: Full-time. 40 hours per week, Monday - Friday

Salary: £27,000 per annum

Closing Date: 12.30pm, Tuesday 14 July 2026. Please note, that we reserve the right to close the role early should we receive suitable candidates.

About Us

AnTech are a global technology company providing products and specialist drilling services to the energy sector. Established in 1992, we design, manufacture and test all our equipment in-house, spanning all areas of mechanical, electronic and software design engineering. As the energy sector moves to a more sustainable future, the technology that has supported it will be ever more important, and we want to be at the forefront of that.

Your Role

The position entails working in the production and test department working on manufacture, testing/assembly of products. You will report directly to the Production Manager for the scheduling of your workload. In your work you will need to interact and develop good professional relationships with all co-workers in order for all of our jobs to be done effectively. The business also relies on good supportive relationships with its vendors and clients for success

Day-to-day Responsibilities

- Assemble products according to specifications and engineering drawings.
- Operate hand tools and power tools safely and effectively.
- Conduct quality checks on assembled products to ensure compliance with standards.
- Maintain an organised workspace, ensuring all tools and materials are stored correctly.
- Computer skills required as the role requires accessing system databases and test report writing.
- Collaborate with team members to meet production targets and deadlines.
- Report any equipment malfunctions or safety concerns to the supervisor promptly.
- Follow all health and safety regulations within the warehouse environment.

Required Skill and Competencies

Essential:

- Previous experience in a production or manufacturing environment is preferred.
- Strong mechanical knowledge with the ability to troubleshoot basic issues.
- Experience using hand tool and power tools for assembly tasks.
- Experience of working in a warehouse setting is advantageous.
- Able to work effectively both independently and as part of a team.
- Able to demonstrate excellent attention to detail and a commitment to producing high-quality work.
- Fluent in English, verbal and written.

Personal Attributes:

- Self-motivated, capable of working independently as well as collaboratively in a team
- Able to carry out physically demanding tasks, which includes standing for long periods of time and lifting up to 25kg .
- Adept at anticipating problems and proactive in seeking solutions.
- Able to demonstrate a safety first mindset.
- Able to present a positive professional image of AnTech at all times.
