## **Talk about medication abortion on social**

Looking for some talking points for your TikTok videos or Reels? Here are a few ideas:

### **Only half of all adults knows that abortion pills exist**

Abortion pills are safe, discreet, and effective—and have been FDA approved since 2000. During this pivotal moment for abortion access, we need to spread the word that this option exists. That's why I joined Hey Jane's Un-Whisper Network—and you can too. Head to [heyjane.com/action](https://heyjane.com/action) to sign up and get their action toolkit.

### **Don't let politics get in the way of science**

Abortion pills are safe, discreet, and effective, and they've been FDA approved since 2000. Help me spread the word—join Hey Jane's Un-Whisper Network and get loud about abortion access.

### **Medication abortion accounts for the majority of all abortions in the US**

Yet only half of all adults know that abortion pills are an option. With Roe v Wade overturned, it's never been more important to spread the word about this safe, discreet, effective option. Get started with Hey Jane's action toolkit at [heyjane.com/action](https://heyjane.com/action)
