Kyocera Document Solutions Australia

The Zudello differentiators, according to Kyocera:

- AI-powered document extraction
- Automated, end-to-end workflows
- Deep ERP integration
- Strong compliance and auditability
- Scalable across industries and organisation sizes
- Delivered through Kyocera’s national network

Kyocera Document Solutions Australia

Kyocera Document Solutions Australia is a national leader in document management and workflow automation, delivering innovative technologies that help organisations optimise processes and accelerate digital transformation across Australia, New Zealand and the Pacific Islands.

Zudello is a FinOps Automation Platform that transforms how organisations process financial documents. Powered by AI-driven extraction and intelligent automation, Zudello enables businesses to eliminate manual processes and control financial operations.

Business Needs

Kyocera sought an automation partner to enhance the intelligence and scalability of its offerings, particularly KESTO and the Kyocera Intelligent Automation Platform. Their customers required solutions that convert documents into actionable data and automate workflows with clear audit trails.

Kyocera needed a platform delivering AI-powered document processing, seamless system integration and scalability across diverse industries while strengthening its position as a leader in automation.

Zudello Automation Platform

Zudello's platform uses AI and machine learning to simplify finance tasks like procurement and Accounts Payable. The no-code interface lets users build custom workflows easily. The Platform integrates seamlessly with ERP systems, providing real-time data updates while ensuring secure, compliant operations with full audit trails.

Zudello Solution

Zudello's AI-powered automation underpins Kyocera's KESTO and Intelligent Automation Platform, providing real-time extraction, routing and validation of financial and operational documents. By transforming PDFs, scans and paper inputs into structured data, Zudello ensures information flows instantly across Kyocera's ecosystem, eliminating manual handling and reducing delays.

Beyond document processing, Zudello automates approval pathways, connects seamlessly to ERP systems and standardises workflows across departments. The combined solution scales with operational demands, ensuring customers can expand confidently while maintaining accuracy, transparency and control.

Benefits

The partnership delivers a more intelligent, connected approach to managing documents and financial workflows. Organisations gain real-time information access, enabling faster, more informed decisions without manual data entry. This clarity reduces bottlenecks, supports compliance and ensures critical tasks move efficiently through the business.

Automation gains are equally impactful. Zudello and Kyocera eliminate repetitive work, allowing employees to focus on strategic activities. By improving data quality, streamlining approvals and unifying information across systems, the solution increases efficiency and reduces document management costs, empowering businesses to modernise with workflows built for long-term growth.

“

“This partnership underscores Kyocera's commitment to investing in smarter, more agile solutions that evolve with customer needs and free teams from manual work so they can focus on what truly drives value.”
