RAISE A FORK TO 90 YEARS

## FROM OUR FAMILY TO YOURS

Porky Whites is more than just a brand – it's a family legacy. Our story began back in the 1930s, with a simple mission: to make the best sausages using the finest ingredients and traditional methods.

Over the years, we've grown from a beloved local butcher to a nationally recognised brand, but that passion for quality remains at the heart of everything we do and we'll always stay true to what makes Porky Whites special – great-tasting, traditionally crafted, premium sausages.

We're fiercely proud of our independence and our family's contribution to family mealtime moments and our Wholesale and Food Service is not just an extension of our business, it's our centre of excellence delivering quality and innovation direct to you and your customers.

## SERVE ONLY THE BEST

We know a thing or two about making great sausages and with over 90 years of butchery and branded product experience, our in-house product development team can also create recipes that are bespoke to your business.

## YOUR THOUGHTS OUR EXPERTISE

We made our name in producing delicious pork sausages but we're butchers first and foremost and we know our way around everything meaty. We work with pork, beef, lamb, venison and chicken - perfect for healthy living and changing buying habits.

Whether you're a restaurant chain looking to elevate your sausage game, a supermarket in search of a trusted own-brand partner, or simply want to chat about a great idea—we're all ears.

## BUY FROM A MULTI-AWARD WINNER

When you've been in butchery for over 90 years like us, it's no wonder we've been consistently recognised time and time again for our innovation and expertise.

“It's hard work making sausages this good. It takes dedication and real attention to detail.

As Factory Manager I know it's down to me to make production run well. A responsibility that I really value.”
