

# RODIN® LUTING CEMENT

RESIN-MODIFIED GLASS IONOMER CEMENT

## PROVEN STRENGTH, EFFORTLESS VERSATILITY

Developed to tackle the demanding challenges of modern dentistry, **Rodin® Luting Cement** is the most advanced resin-modified glass ionomer cement.

# RODIN® LUTING CEMENT

RESIN-MODIFIED GLASS IONOMER CEMENT

Veneer, Adhesive Bridge

Crown & Bridge

Post, Bonding for Build-up, Crown

Inlay/Onlay

## Product Features

### Reinforced Strength & Minimal Shrinkage:

Proprietary chemistry strengthens the cement matrix for durable bonds across printed resins, lithium disilicate, zirconia, alloys, and titanium.

### Sustained Fluoride Release:

Continuously releases fluoride to support remineralization, reduce secondary caries risk, and enhance long-term clinical success.

### Superior Protection Against Microbial Challenges:

Low shrinkage reduces marginal gaps to prevent bacterial infiltration and maintain long-term restoration integrity.

### Enhanced Bond Strength & Unmatched Reliability:

Engineered for strong, lasting adhesion to natural abutments and implants.

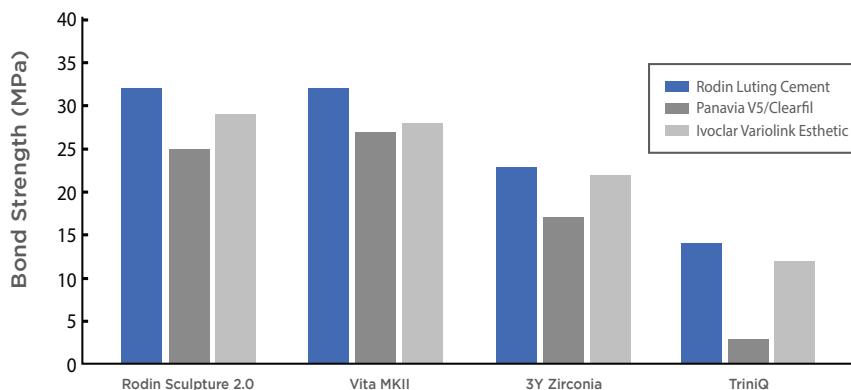

### Optimized Aesthetics for Seamless Integration:

With natural translucency and high radiopacity, four shades blend seamlessly and mask dark preps or metal abutments.

Comparison of Bond Strength for Different Materials and Cements

Data provided by Dr. Russell Giordano of Boston University

## Best in Class Bond Strength on:

- ✓ 3D Resin based
- ✓ Glass-ceramic
- ✓ Zirconia
- ✓ Restorations

# WORKFLOW

## STEP 1

Etch enamel and dentin with **EtchPro™**

## STEP 2

Apply **Rodin® Bond** Adhesive (optional)

## STEP 3

Apply **Rodin® Silane Primer™** (Crown and Veneer)

## STEP 4

Apply **Rodin® Luting Cement** to Restoration

## STEP 5

Seat Restoration and Remove Excess Cement

## STEP 6

Light Cure Surface from All Angles.

## COMPLETE RESTORATIVE WORKFLOW

Product Name					
Product Type	Resin Modified Glass Ionomer Cement	Light-Cured Resin Cement	Universal Adhesive/Bonding Agent	Restorative Glaze	Dentin Desensitizer
Indications	Cementation of crowns, bridges, inlays, onlays, posts, some ceramics	Bonding of porcelain/composite veneers (thin restorations)	Bonding to enamel, dentin, & various restorative surfaces	Glazing & finishing of all surfaces including porcelain, zirconia, & ceramic restorations	Reduction of dentinal hypersensitivity
Setting Mechanism	Dual-cure (light + chemical)	Light-cure only	Light-cure	Light-cure	Self-Drying (No Light Cure)
Available Shades	Multiple Esthetic Shades (Clear, White, White Opaque, Yellow)	Multiple Esthetic Shades (Clear, White, White Opaque, Yellow)	Clear/Universal	Clear/Universal	N/A
Delivery Method	Automix Syringe	Syringe with Tips	Bottle (Brush Application)	Bottle (Brush Application)	Bottle (Brush Application)
Key Features	High bond strength to multiple substrates, easy cleanup, low film thickness	Ultra-thin film thickness, excellent esthetics, color stability	One-step universal application, strong adhesion to tooth structure & restorations	High-gloss finish, N2-free formulation, easy application, enhances esthetics & longevity	Seals dentinal tubules, immediate & long-lasting sensitivity relief

**Item#**      **Product Description**

**451101**      **Rodin Luting Cement Starter Kit**

5x	Rodin Luting Cement Syringe, 5 g Shades: 2 x Clear, 1 x White, 1 x White Opaque, 1 x Yellow	10x	Tapered Mixing Tips
4x	Rodin Try-in Gel Clear, 3 g Shades: 1 x Clear, 1 x White, 1 x White Opaque, 1 x Yellow	10x	Flat Mixing Tips
1x	Rodin Bond Adhesive Bottle, 5 mL	10x	Intra-Oral Tips
1x	Rodin Silane Primer Bottle, 5 mL	10x	Dispensing Tips
2x	Rodin EtchPro Etching Gel Syringe, 1.2 mL	10x	MicroPro Micro Applicators Ultra Fine
			4-Well Mixing Wells

**451102**      **Rodin Luting Cement Refill Clear**

2x 5g Clear Syringes

**451103**      **Rodin Luting Cement Refill White**

2x 5g White Syringes

**451104**      **Rodin Luting Cement Refill White Opaque**

2x 5g White Opaque Syringes

**451105**      **Rodin Luting Cement Refill Yellow**

2x 5g Yellow Syringes

\*All refills include 5x Intraoral Tips, 5x Tapered Mixing Tips, 5x Flat Mixing Tips\*

**451107**      **Rodin Try-in Gel Refill: 1x 3g Try-in Gel Syringe, Clear**

**451108**      **Rodin Try-in Gel Refill: 1x 3g Try-in Gel Syringe, White**

**451109**      **Rodin Try-in Gel Refill: 1x 3g Try-in Gel Syringe, White Opaque**

**451110**      **Rodin Try-in Gel Refill: 1x 3g Try-in Gel Syringe, Yellow**

**471102**      **Rodin Bond Dental Adhesive Refill, 5mL Bottle**

**471201**      **Silane Primer Refill, 5ml Bottle**

**135**      **Rodin EtchPro 38% Phosphoric Acid Etch**

4x 1.2 mL Syringes, 8x Dispensing Tips

**135E**      **Econo pack: 36x 1.2 mL Syringes**

**135C**      **Clinic pack: 144x 1.2 mL Syringes**

**231**      **25 Ga tips, Etch, Blue, 100/pk**

**901**      **Disposable MicroPro Applicators Standard 2.0mm, 400/pk**

**902**      **Disposable MicroPro Applicators Fine 1.5mm, 400/pk**

**903**      **Disposable MicroPro Applicators Ultra fine 1.0mm, 400/pk**

**904**      **Disposable MicroPro Applicators Tapered, 400/pk**

**906**      **Mixing Well, 4-Well, 200/pk**
