

RODIN®
3D Resin

A Pac-Dent Brand

RAPIDCERAM™

Uncompromised Strength, Accelerated Speed

RapidCeram is a ceramic nanohybrid resin that sets a new standard for same-day digital dentistry, delivering print speeds up to 2X faster than other resins without compromising the strength, esthetics, or precision that define the Rodin® line. Engineered for high-speed, same-day workflows, RapidCeram empowers clinicians and labs to produce high-quality crowns, bridges, and denture teeth in a single appointment—reducing turnaround time and enhancing patient satisfaction.

Key Benefits & Features

- High-Speed Printing
- Best-in-Class Esthetics
- Contains **Over 51%** Ceramic Filler
- Precision Fit

*Data on file

“As a power user of 3D printing in clinical practice we are enjoying using Rodin Rapid Ceram for everything from full arch hybrids to single crowns. Rodin Rapid Ceram prints faster on our existing equipment allowing us to increase productivity without additional capital expenditure or workflow disruption.”
