

Independent Auditor's Report

To
The Members of **Standard Flora Private Limited**
Hyderabad

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Standard Flora Private Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025, and its Profit (including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibility under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and

Analysis, Board's Report including Annexures to Board's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and

obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure-A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015 as amended.
- (e) On the basis of written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "**Annexure B**". Our report expresses an unmodified opinion on the adequacy and operating the effectiveness of the company's internal financial controls over financials reporting.
- (g) In our opinion, according to information, explanations given to us, the provisions of Section 197 read with Schedule V of the Act and the rules thereunder are not applicable to the Company as it is a private Company.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company did not have any pending litigations which would impact on its financial position in its Ind AS financial statements.
 - ii. The Company has not entered in to any long-term contracts including derivative contracts requiring provisions under the applicable law or accounting standards, for material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31st March, 2025.
 - iv. (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether

recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

- v. The Company has neither declared any dividend nor paid any dividend during the year.
- vi. Based on our examination, the Company has used an accounting software for maintaining its books of account during the year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility, and the same has been enabled and operated throughout the year for all relevant transactions recorded in the accounting software. Further, during the course of our examination, we did not come across any instance of audit trail feature being tampered with.

Annexure A to Independent Auditor's Report
Referred to in Paragraph 1 under the heading of 'Report on Other Legal and Regulatory Requirements' of our report of even date

- i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.
- (B) The Company is maintaining proper records showing full particulars of Intangible Assets.
- (b) The Property, Plant and Equipment are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of records examined by us, we report that, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the Company.
- (d) According to the information and explanations given to us and on the basis of records examined by us, the Company has neither revalued any of its Property, Plant and Equipment (including Right-of-use Assets) nor its Intangible Assets during the year. Accordingly, reporting under clause 3(i)(d) of the Order is not applicable.
- (e) Based on the information and explanations furnished to us, no proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in its financial statements does not arise.
- ii. (a) The inventory has been physically verified by the management during the year in our opinion the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were 10% or more in the aggregate for each class of inventory.
- (b) The Company has been sanctioned working capital limits in excess of five crores, during the year, from banks or financial institutions on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the books of accounts.

- iii. According to the information and explanations given to us and on the basis of our examination of the records of the Company, during the year company has not made investments, granted advances in the nature of loans, secured or unsecured. Accordingly, clause 3 (iii) (a) to 3 (iii)(f) of the order is not applicable to the company.
- iv. According to the information and explanation given to us and on the basis of our examination of the records, the Company has not given any loans, or provided any guarantee or security as specified under section 185 of the Companies Act, 2013 and the Company has not provided any guarantee or security as specified under section 186 of the Company. Accordingly provision stated in paragraph 3(iv) of the order not applicable to the company.
- v. According to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Companies Act, 2013 and the rules framed there under. Accordingly, the provisions stated under clause 3(v) of the Order is not applicable to the Company
- vi. According to the information and explanations given to us, Central Government has prescribed the maintenance of cost records under section 148(1) of the Companies Act, 2013 for the business activities carried out by the Company. Accordingly, Company is generally maintaining proper cost records as specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess, and other statutory dues have been regularly deposited by the Company with appropriate authorities in all cases during the year.

There are no undisputed amounts payable in respect of Goods and Services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, cess, and other statutory dues in arrears as at March 31, 2025, outstanding for a period of more than six months from the date they became payable.

(b) According to the information and explanation given to us and the records of the Company examined by us, there are no dues relating to goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess, and other statutory dues which have not been deposited on account of any dispute.
- viii. According to the information and explanations given to us, there are no transactions which are not accounted in the books of account which have been surrendered or disclosed as income during the year in Income-tax Assessment of the Company. Accordingly, the provision stated under clause 3(viii) of the Order is not applicable to the Company.

- ix. (a) According to the information and explanations give to us and on the basis of our examination of the records of the Company, The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year. Accordingly, clause 3 (ix) (a) of the order is not applicable.
- (b) According to the information and explanations give to us and on the basis of our examination of the records of the Company, the Company has not been declared a willful defaulter by any bank of financial institution or government of government authority.
- (c) In our opinion and according to the information and explanations give to us by the management, the Company has not been sanctioned any term loan or has been got disbursement during the financial year.
- (d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short- term basis have been used for long term purpose by the company.
- (e) The Company does not have any subsidiary, associate, or joint venture. Accordingly, reporting under clause 3(ix)(e) of the order is not applicable to the Company.
- (f) The Company does not have any subsidiary, associate, or joint venture. Accordingly, reporting under clause 3(ix)(f) of the order is not applicable to the Company. .
- x. (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, Clause 3(x) (a) of the order is not applicable.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares of fully of partly convertible debentures during the year Accordingly, Clause 3(x) (b) of the order is not applicable.
- xi. (a) Based on our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we report that no material fraud by the Company or on the Company has been noticed or reported during the year in the course of our audit.
- (b) Based on our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the provisions stated under clause 3(xi)(b) of the Order is not applicable to the Company.
- (c) According to the information and explanations given to us no whistle blower complains received by the Company during the year.

- xii. According to the information and explanations given to us, the Company is not a Nidhi Company, Accordingly, Clause 3(xii) of the order is not applicable.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Companies Act, 2013, where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- xiv. In our opinion and based on information and explanations provided to us, the company does not have internal audit system and is not required to have an internal audit system as per the provisions of Section 138 of the Companies Act, 2013.
- xv. In our opinion and according to the information and explanations given us, the Company has not entered in to any non-cash transactions with its directors or persons or persons connected to its directors and hence, provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, Clause 3(xvi) (a) of the order is not applicable.
- (b) The Company has not conducted non-banking financial/housing finance activities during the year. Accordingly, Clause 3(xvi) (b) of the order is not applicable.
- (c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, Clause 3(xvi) (c) of the order is not applicable.
- (d) According to the information and explanations provided to us during the course of audit, the Group does not have any CIC, Accordingly, the requirements of Clause 3(xvi) (d) are not applicable.
- xvii. The company has not incurred any cash losses in the financial year and immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors during the year, Accordingly, Clause 3(xviii) of the order is not applicable.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dated of realization of financial assets and payments of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not Capable of meeting its liabilities existing at the date of balance sheet date. We however,

state that this is not an assurance as to the futures viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- xx. According to the information and explanations given to us and based on our verification, The Company has fully spent the required amount towards Corporate Social Responsibility ("CSR") and there is no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Act, or to a special account as per the provision of section 135 of the Act read with Schedule VII to the Act. Accordingly, reporting under clause 3 (xx) (a) and 3(xx) (b) of the Order is not applicable for the year.
- xxi. According to the information and explanations given to us, the Company does not have any Subsidiary, Associate or Joint Venture. Accordingly, reporting under clause 3(xxi) of the Order is not applicable

Annexure B to Independent Auditor's Report

Referred to in Paragraph 2(f) under the heading of 'Report on Other Legal and Regulatory Requirements' of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Standard Flora Private Limited** ("the Company") as of 31st March, 2025 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

1.1 General Information

Standard Flora Private Limited is a Company, incorporated on April 12, 2023 and is a subsidiary of Standard Glass Lining Technology Limited (formerly known as "Standard Glass Lining Technology Private Limited"). The Company is engaged in the business of manufacturing and selling of PTFE lined metal pipes, PTFE fittings, valves and other equipments, fittings, instruments and accessories thereof. During the year ended March 31, 2024, the Company has Acquired the business of Higenic Flora Polymers and Yashasvee Glass Lining Industries on a slump sale basis vide business transfer agreement("BTA") dated May 24, 2023.

The registered office of the Company is located at D.12, Phase-1, IDA Jeedimetla, Hyderabad, Telangana, India, 500055.

1.2 Statement of Compliance

These financial statements of the Company have been prepared and presented in accordance with and in compliance in all material aspects, with the Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 (the "Act") read along with the Companies (Indian Accounting Standards) Rules 2015, and presentation requirements of Division II of Schedule III to the Companies Act, 2013, and as amended from time to time

These financial statements have been prepared for the Company as a going concern on the basis of relevant Ind AS that are effective at the reporting date March 31, 2025. These financial statements for the year ended March 31, 2025 were approved by the Company's Board of Directors on May 22, 2025.

1.3 Basis of Measurement

These financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the balance sheet:

- Derivative financial instruments are measured at fair value.
- Certain financial assets are measured either at fair value or at amortised cost depending on the classification;
- Employee defined benefit assets/(liability) are recognised as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation,
- Long-term borrowings are measured at amortised cost using the effective interest rate method.; and
- right-of-use the assets are recognised at the present value of lease payments that are not paid at that date. This amount is adjusted for any lease payments made at or before the commencement date, lease incentives received and initial direct costs, incurred, if any.

2. Summary of material accounting policies

2.1 Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

All the assets and liabilities have been classified as current or noncurrent as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act and Ind AS 1, Presentation of financial statements.

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is expected to be realised within twelve months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- It is due to be settled within twelve months after the reporting date; or
- The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Company classifies all other liabilities as non-current.

Current assets/ liabilities include the current portion of noncurrent assets/ liabilities respectively. Deferred tax assets and liabilities are always disclosed as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (rounded off to nearest lakhs), which is also the functional currency of the Company.

2.3 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the Ind AS financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Ind AS financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for sale in discontinued operations. External valuers are involved, wherever considered necessary. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above. This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

2.4 Foreign Currency transactions

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date, the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate, if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the initial transaction.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income ("OCI") or Statement of profit or loss are also recognised in OCI or Statement of profit or loss, respectively).

2.5 Property Plant & Equipment

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, duties and taxes applicable and other expenses related to acquisition and installation. The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use. Borrowing costs that are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part will be derecognised. The costs of repairs and maintenance are recognised in the statement of profit and loss as incurred.

Items of stores and spares that meet the definition of Property, plant and equipment are capitalized at cost, otherwise, such items are classified as inventories.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

Depreciation is recognised in the Statement of profit and loss on a straight line basis based on the Act ("Schedule II"). For assets acquired or disposed of during the year, depreciation is provided on pro rata basis. Land is not depreciated.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Buildings	30
Roads	10
Plant and machinery	15
Office Equipment	10
Furniture and Fixtures	10
Electrical Equipment	10
Computers	3

Insurance/capital/critical stores and spares are depreciated over the remaining useful life of related plant and equipment or useful life of insurance/capital/critical spares, whichever is lower.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other assets. The cost of property, plant and equipment not ready to use before such date are disclosed under capital work-in-progress.

Assets not ready for use are not depreciated.

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

2.6 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in the statement of profit and loss in the period in which the expenditure is incurred.

Intangible assets are amortised over the useful economic life and assessed for impairment, whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the statement of profit and loss, unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

Following initial recognition, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use.

Tabulated below is the useful life determined by the management for different class of intangible assets:

Type of Asset	Estimated useful life
Computer Software	6

2.7 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost, if both of the following conditions are met: (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the Statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI, if both of the following criteria are met: (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and (ii) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in OCI. However, the Company recognises interest income, impairment losses and foreign exchange gain or loss in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of profit and loss.

Equity Instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as FVTPL. If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Company's balance sheet) when:

- a. The rights to receive cash flows from the asset have expired, or
- b. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of Financial Assets

The Company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired.

In accordance with Ind AS 109, the Company uses "Expected Credit Loss" (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date);
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

The Company follows simplified approach for recognition of impairment loss allowance on trade receivables and under the simplified approach, the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated.

For other assets, the Company uses 12-month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

b. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading, unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the Statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to the Statement of profit and loss.

However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Loans and borrowings

Borrowings is the category most relevant to the Company. After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of profit and loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the re-classification prospectively from the re-classification date, which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.8 Investment in Subsidiaries, Associates and Joint Ventures

The Company has accounted for its investments in equity shares of Subsidiaries, associates and joint venture at cost less impairment loss (if any).

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

2.9 Derivative financial instruments and hedge accounting

The Company uses derivative financial instruments, such as forward currency contracts, currency and interest rate swaps, to hedge its foreign currency risks and interest rate risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to the statement of profit and loss.

2.10 Cash & Cash Equivalents

Cash and bank balances comprise of cash balance in hand, in current accounts with banks, and other short-term deposits. For this purpose, "short-term" means investments having maturity of three months or less from the date of investment, and which are subject to an insignificant risk of change in value. Bank overdrafts that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the Statement of cash flows.

2.11 Inventories

Inventories are valued at the lower of cost and net realisable value.

Inventories consisting of raw materials, stores and spares, packing materials, work-in-progress and finished goods.

Finished goods and Work-in-Progress are valued at lower of cost and net realisable value.

Raw Materials and Packing Materials are valued at cost on weighted average basis.

Stores & Spares are valued at weighted average cost.

Goods-in-Transit are valued at cost.

Materials and other items held for use in the production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost.

Cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Stores and spares, that do not qualify to be recognised as property, plant and equipment, consists of packing materials, engineering spares (such as machinery spare parts) and consumables which are used in operating machines or consumed as indirect materials in the manufacturing process.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

2.12 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at March 31.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflow of other assets or groups of assets (the "cash-generating unit").

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the entity operates, or for the market in which the asset is used.

An impairment loss is recognised in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

Reversal of Impairment of Assets

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.13 Employee Benefits

Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

The Company's contributions to defined contribution plans are charged to the Statement of profit and loss as and when the services are received from the employees.

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

Defined benefit plans

The liability in respect of defined benefit plans and other post-employment benefits is calculated using the projected unit credit method consistent with the advice of independent qualified actuaries. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related defined benefit obligation. In countries where there is no deep market in such bonds, the market interest rates on government bonds are used. The current service cost of the defined benefit plan, recognised in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognised immediately in the Statement of profit and loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for defined benefit obligation and plan assets are recognised in OCI in the period in which they arise. When the benefits under a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. The Company recognises gains or losses on the settlement of a defined benefit plan obligation when the settlement occurs.

Termination benefits

Termination benefits are recognised as an expense in the statement of profit and loss when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense in the statement of profit and loss if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Other long-term employee benefits

The Company's net obligation in respect of other long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognised in the statement of profit and loss in the period in which they arise.

Compensated absences

The Company's current policies permit certain categories of its employees to accumulate and carry forward a portion of their unutilised compensated absences and utilise them in future periods or receive cash in lieu thereof in accordance with the terms of such policies. The Company measures the expected cost of accumulating compensated absences as the additional amount that the Company incurs as a result of the unused entitlement that has accumulated at the reporting date. Such measurement is based on actuarial valuation as at the reporting date carried out by a qualified independent actuary.

The Company treats accumulated leave expected to be carried forward beyond 12 months, as long-term employee benefit for measurement purposes. The Company presents the compensated absences as a current liability in the balance sheet as it does not have an unconditional right to defer its utilisation for 12 months after the reporting date.

2.14 Provisions, contingent liabilities and contingent assets

Provisions

A provision is recognised in the Statement of profit and loss if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities and contingent assets

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

Onerous contracts

A provision for onerous contracts is recognised in the statement of profit and loss when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

Reimbursement rights

Expected reimbursements for expenditures required to settle a provision are recognised in the statement of profit and loss only when receipt of such reimbursements is virtually certain. Such reimbursements are recognised as a separate asset in the balance sheet, with a corresponding credit to the specific expense for which the provision has been made.

2.15 Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods.

Revenue is recognised to the extent that it is probable that economic benefits will flow to the Company and the revenue can be reliably measured regardless of when the payment is being made.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of rebates and discounts.

Goods and Service Tax (GST) is not received by the Company on its own account and is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

Sale of products

Revenue from sale of product is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the product.

Generally, control is transferred upon shipment of goods to the customer or when the goods are made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and value added tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives / discounts. In determining the transaction price for the sale of goods, the Company considers the effects of variable consideration, the existence of significant financing components, and consideration payable to the customer (if any).

Sale of services

Service income is recognised, on an accrual basis, at agreed rate in accordance with the terms of the agreement.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A trade receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

2.16 Interest Income

Interest Income mainly comprises of interest on Margin money deposit with banks relating to bank guarantee and Deposits. Interest income should be recorded using the effective interest rate (EIR). However, the amount of margin money deposits relating to bank guarantee are purely current in nature, hence effective interest rate has not been applied. Interest is recognised using the time-proportion method, based on rates implicit in the transactions.

2.17 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

2.18 Tax Expenses

Tax expense consists of current and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions, where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities and assets are recognised for all taxable temporary differences and deductible temporary differences.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Goods and Service Tax (GST) paid on acquisition of assets or on incurring expenses

When the tax incurred on purchase of assets or services is not recoverable from the taxation authority, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable. Otherwise, expenses and assets are recognised net of the amount of taxes paid. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

2.19 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section of Impairment of non-financial assets.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Company's lease liabilities are included in Borrowings.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.20 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.21 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2.22 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Company), whose operating results are regularly reviewed by the Company's chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Operating segments of the Company are reported in a manner consistent with the internal reporting provided to the CODM.

2.23 Significant accounting judgements, estimates, and assumption

The preparation of the financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, the areas involving critical estimates or Judgment are:

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

Determining the lease term of contracts with renewal and termination options

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate. Furthermore, the periods covered by termination options are included as part of the lease term only when they are reasonably certain not to be exercised.

Property, plant and equipment

The depreciation of property, plant and equipment is derived on determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time of acquisition of asset and is reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life.

Impairment of financial and non-financial assets

Significant management judgement is required to determine the amounts of impairment loss on the financial and non-financial assets. The calculations of impairment loss are sensitive to underlying assumptions.

Tax provisions and contingencies

Significant management judgement is required to determine the amounts of tax provisions and contingencies. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Defined benefit plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using internal valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial

2.24 New Accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Based on the information available with the Company, there are no outstanding dues and payments made to any supplier of goods and services beyond the specified period under Micro, Small and Medium Enterprises Development Act, 2006 [MSMED Act]. There is no interest payable or paid to any suppliers under the said Act.

Disclosure under the Micro, Small and Medium Enterprises Development Act, 2006

The Company has certain dues to suppliers (trade and capital) registered under Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED Act'). The disclosures pursuant to the said MSMED Act are as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
(a) The principal amount and the interest due thereon remaining unpaid to any supplier registered under the MSMED Act at the end of each accounting year; - Principal amount (including capital creditors) - Interest amount	3.29	23.21
(b) The amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 (27 of 2006), along with the amount of the payment made to the supplier beyond the appointed day during each accounting year;	-	-
(c) The amount of interest due and payable for the period of delay in making payment (which has been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006;	-	-
(d) The amount of interest accrued and remaining unpaid at the end of each accounting year	-	-
(e) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006.	-	-

31 Segment information

The Managing Director of the company has been identified as being the Chief Operating Decision Maker (CODM). In the opinion of the management, the company has only one operating segment i.e., is engaged in manufacturing and selling of PTFE lined pipes and fittings. Hence, the same becomes the reportable segment for the Company. Accordingly, disclosure of segment information as prescribed in the Indian accounting standard 108 "Operating segments" is not applicable.

32 Employee benefits

Defined Contribution Plan

Contributions were made to provident fund and employee state insurance to India for the employees of the company as per the regulations. These contributions are made to registered funds administered by the Government of India. The obligation of the company is limited to the amount contributed and it has no further contractual nor any constructive obligation.

During the period the company has recognised the following amounts in the statement of profit and loss:

Particulars	For the Year ended March 31, 2025	For the Period ended March 31, 2024
Employers Contribution to Provident fund	4.57	4.39
Employers Contribution to Employee state insurance	0.74	0.68
	5.31	5.07

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

Defined Benefit Plan

In accordance with applicable laws, the Company has a defined benefit plan which provides for gratuity payments (the "Gratuity Plan") and covers certain categories of employees in India. The Gratuity Plan provides a lump sum gratuity payment to eligible employees at retirement or termination of their employment. The amount of the payment is based on the respective employee's last drawn salary and the years of employment with the Company. Liabilities in respect of the Gratuity Plan are determined by an actuarial valuation and plan is unfunded.

The components of gratuity cost recognised in the statement of profit and loss consist of the following:

Particulars	For the Year ended March 31, 2025	For the Period ended March 31, 2024

34 Financial instruments and fair value

All assets and liabilities for which fair value is measured or disclosed in the Ind AS financial statements are categorised within the fair value hierarchy, as below, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Financial instruments by category

The carrying value and fair value of financial instruments as of March 31, 2025 and March 31, 2024 are as follows:

Particulars	As at March 31, 2025		As at March 31, 2024	
	Total carrying value	Total fair value	Total carrying value	Total fair value
Assets:				
Cash and cash equivalents	0.06	0.06	0.21	0.21
Trade and other receivables	1,220.87	1,220.87	950.86	950.86
Other financial assets	0.10	0.10	0.60	0.60
Total	1,221.03	1,221.03	951.67	951.67
Liabilities:				
Trade and other payables	548.47	548.47	555.87	555.87
Borrowings	2,329.15	2,329.15	1,916.85	1,916.85
Other financial liabilities	23.65	23.65	8.46	8.46
Total	2,901.27	2,901.27	2,481.18	2,481.18

There has been no transfers between levels during the year. The fair values of derivatives are based on derived mark-to-market values. The management has assessed that the carrying values of financial assets and financial liabilities for which fair values are disclosed, reasonably approximate their fair values because these instruments have short-term maturities.

Borrowings are Indian currency long-term loans wherein interest rates are linked to benchmark rates (Marginal Cost of Lending Rates/Prime Lending Rates) of respective lenders. These benchmark rates are determined based on cost of funds of the lenders, as well as, market rates. The benchmark rates are periodically revised by the lenders to reflect prevalent market conditions. Accordingly, effective cost of debt for borrowings at any point of time is in line with the prevalent market rates. Due to these reasons, management is of the opinion that they can achieve refinancing, if required, at similar cost of debt, as current effective interest rates. Hence, the discounting rate for calculating the fair value of Borrowings has been taken in line with the current cost of debt.

35 Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, trade and other receivables, cash and cash equivalents, bank balances, security deposits and derivatives that are out of regular business operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's risk management is carried out by a treasury department under policies approved by the Board of Directors. The Board of Directors provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument that will fluctuate because of changes in market prices. Market risk comprises three types of risk i.e. interest rate risk, currency risk and other price risk, such as commodity risk. Financial instruments affected by market risk include borrowings, derivatives financial instruments and trade payables.

i. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rate relates primarily to the Company's borrowings with floating interest rates. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, without considering impact of derivatives not designated as hedges, as follows:

	Increase/(decrease) in basis points	Effect on profit before tax
		Rs. Lakhs
		March 31, 2025
INR	100.00	(4.96)
INR	(100.00)	4.96
		March 31, 2024
INR	100.00	(2.84)
INR	(100.00)	2.84

ii. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency borrowings and trade payables. The summary of derivative instruments and unhedged foreign currency exposure is as below:

Derivatives (not designated as hedges) outstanding as at the reporting date

Type	Currency	As at March 31, 2025		As at March 31, 2024	
		Foreign currency in lakhs	Rs. Lakhs	Foreign currency in lakhs	Rs. Lakhs
Cross currency swaps*	EURO	-	-	-	-
Interest rate swaps*	EURO	-	-	-	-
Forward contracts	USD	-	-	-	-

Un-hedged foreign currency exposure as at the reporting date:

Particulars	Currency	As at March 31, 2025		As at March 31, 2024	
		Foreign currency in USD Lakhs	Rs. Lakhs	Foreign currency in USD Lakhs	Rs. Lakhs
Trade receivables	EURO	0.32	28.83	-	-
Advance Received	USD	-	-	0.02	1.34

The following tables demonstrate the sensitivity to a reasonably possible change in foreign exchange rates, with all other variables held constant and without considering impact of derivatives not designated as hedges:

Particulars	As at March 31, 2025		As at March 31, 2024	
	5% increase	5% decrease	5% increase	5% decrease
Impact on profit before tax				
EURO	1.44	(1.44)		
USD			0.07	(0.07)

(b) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty default on its obligations. The Company's exposure to credit risk arises majorly from trade and other receivables. Other financial assets like security deposits and bank deposits are mostly with government authorities and scheduled banks and hence, the Company does not expect any credit risk with respect to these financial assets.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Details of financial assets - not due, past due and impaired

None of the Company's cash equivalents, including term deposits with banks, were past due or impaired as of March 31, 2025. The Company's credit period for trade and other receivables payable by its customers generally ranges from 30 to 90 days.

Standard Flora Private Limited

CIN:U28299TS2023PTC171903

Notes forming part of the Financial Statements for the Year ended March 31, 2025

(All amounts are in Rs. Lakhs except share data or unless otherwise stated)

The ageing of trade and other receivables is given below:

Reconciliation of impairment of trade receivables and other assets

Particulars	As at March 31, 2025	As at March 31, 2024
Impairment of Trade receivable		
Balance at the beginning of the year	24.38	-
Add: Provision made during the year	(7.30)	24.38
Less: Reversal of earlier years provisions	-	-
Less: Bad debts written off from earlier years provisions	-	-
Balance at the end of the year*	17.08	24.38

(c) Liquidity risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

The table below summarises the maturity profile of the Company's financial liabilities on undiscounted basis:

Particulars	Up to 1 year	1-3 years	3-5 years	Above 5 years	Total
March 31, 2025					
Non-current borrowings	-	-	-	1,394.86	1,394.86
Current borrowings	934.29	-	-	-	934.29
Trade payables	548.47	-	-	-	548.47
Other financial liabilities	23.65	-	-	-	23.65
Total	1,506.40	-	-	1,394.86	2,901.26
March 31, 2024					
Non-current borrowings	-	-	-	1,289.45	1,289.45
Current borrowings	627.40	-	-	-	627.40
Trade payables	555.87	-	-	-	555.87
Other financial liabilities	8.46	-	-	-	8.46
Total	1,191.72	-	-	1,289.45	2,481.17

36 Details of CSR expenditure

Details of Corporate Social Responsibility expenditure in accordance with section 135 of the Act:

Particulars	For the Year ended March 31, 2025	For the Period ended March 31, 2024
i) Amount required to be spent by the Company during the year	10.40	-
ii) Amount required to be set off for the financial year, if any	-	-

- (xiii) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and the Group does not have any CICs, which are part of the Group.

39

Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, securities premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents, excluding discontinued operations.

Particulars	As at March 31, 2025	As at March 31, 2024
Borrowings	1,394.86	1,289.45
Lease liabilities	-	-
Current borrowing	934.29	627.40
Less: cash and cash equivalents	0.06	0.21
Net debt	2,329.09	1,916.64
