Realbotix Robot to Appear on Emmy Winning Television Show

Television placement highlights Realbotix's positioning in the emerging ultra-realistic humanoid robotics market.

LAS VEGAS, NEVADA – August 6, 2026 – Realbotix Corp. (TSX-V: XBOT) (Frankfurt: 76M0.F) (OTC: XBOTF) ("Realbotix" or the "Company"), a leading manufacturer of humanoid robots and embedded AI systems, entered into an agreement with a recognized streaming platform to feature one of its robots as a robotic character in an upcoming episode of a popular Emmy awarded television series.

The appearance is significant for Realbotix and highlights the growing cultural relevance of humanoid robotics in mainstream entertainment[1].

"Entertainment plays an important role in shaping public perception and adoption of emerging technologies. We believe this opportunity demonstrates how our highly realistic robots are uniquely positioned to bridge the gap between science fiction and real-world deployment," said Andrew Kiguel, Chief Executive Officer of Realbotix.

While the entertainment industry represents one early adoption pathway, Realbotix believes the broader market opportunity for humanoid robotics spans multiple sectors including education, healthcare environments, hospitality, customer engagement, and research applications.

The Company's robots are designed to operate as physical embodiments of AI systems while also supporting digital counterparts accessible through mobile devices, desktop platforms, and robotic interfaces. This approach allows

Realbotix to extend the reach of its technology across both physical robotics and scalable software experiences.

About Realbotix
Realbotix Corp. is a U.S. based innovator of humanoid robots and embodied AI systems designed for natural human interaction. Manufactured in the United States, Realbotix's patented technologies enable lifelike facial expressions, fluid movement, vision systems, and advanced social engagement. The Company's platforms are developed for applications in healthcare, education, service industries, and consumer markets. For more information, visit www.realbotix.ai.

Forward-Looking Statements
This news release contains forward-looking statements and information within the meaning of applicable securities laws, including management's objectives, strategies, beliefs, and intentions. Forward-looking statements are often, but not always, identified by words such as "may," "will," "plan," "expect," "anticipate," "estimate," "intend," "believe," or similar expressions referring to future events or results.

These forward-looking statements are based on management's current opinions and expectations and are subject to known and unknown risks, uncertainties, and other factors that may cause actual results, levels of activity, performance, or achievements to be materially different from those expressed or implied by such statements.

Readers are cautioned not to place undue reliance on forward-looking statements. Although management believes that the expectations reflected in these forward-looking statements are reasonable, there can be no assurance that such expectations will prove to be correct.

All forward-looking statements are subject to the risks and uncertainties detailed in the Company's continuous disclosure filings available at www.sedarplus.ca. The Company assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by applicable law.
