

September 11, 2026

Dear Sir/Madam,

Invitation To Tender for ADC CMC Process Development & Pilot Batch Production

You are invited to submit a tender to provide ADC CMC process development and pilot batch production to Arbele Limited.

By participating in this tender, you are indicating your acceptance to be bound by the guidelines set out in this letter and attachments. We provide below the key details of requirements, which you should consider in your response.

To simplify the exchange of information regarding this Invitation to Tender (ITT) please nominate a Bid Manager (together with their deputy) and relevant contact telephone, facsimile numbers, and email addresses.

Please direct any questions regarding the ITT content or process to the Arbele Ltd representatives named below. You should not contact other Arbele Ltd personnel unless directed to do so by the Arbele Ltd representative. Arbele Ltd reserves the right to disqualify and reject proposals from suppliers who do not comply with these guidelines. All questions should be submitted in writing either by post or to the email address below.

Only communications made by your Bid Manager (or their deputy) to our named representatives, Tony Wong Kwong-Fai, Chief Technology Officer will be considered during the pre-contract tender period.

As part of this tender process Arbele Ltd makes no obligations in any way to:

1. pay any vendor for any ITT response; or
2. award the contract with the lowest or any bidder; or
3. accept any ITT information received from vendors; or
4. include vendors responding to this ITT, in any future invitation; or
5. any other commitment to vendors whatsoever.

I look forward to receiving your response.

Yours sincerely,

Alexis Che, PhD
CMC Operation Lead
Arbele Limited

Invitation To Tender

ADC CMC Process Development & Pilot Batch Production (Ref: T-26-01)

A. Background

Arbele Limited is a biopharmaceutical company based in Hong Kong Science & Technology Park engaging in development and commercialization of “first-in-class” humanized antibody biologics including antibody-drug conjugate (ADC) for treating advanced gastrointestinal cancers.

B. Project Summary

To proceed with the project into CTN & IND filing and clinical trials of our lead ADC candidate, we are now seeking a proposal for ADC CMC process development and pilot batch production. The list and scope of each activity associated with the study is described below. The study should be designed and conducted in accordance with the guidelines of NMPA, EMA, FDA and other relevant regulatory agencies.

1. ADC CMC process development

- Develop CMC process for ADC production
- Establish and validate relevant assays for the release of ADC product
- Conduct pilot formulation and stability studies

2. Pilot batch production

- Manufacturing a pilot batch of ADC for IND-enabling safety study

C. Respondent Instruction

Tenders should be submitted no later than 18:00 Hong Kong time on the 25th of September 2026. Please deliver an electronic copy of the written proposal with pricing information to:

Alexis CHE

E: Alexis.che@arbelebio.com

Arbele Ltd reserves the right to disregard any response submitted after the deadline, and to modify the provisions of this ITT at any time prior to the scheduled date for written responses. Additional scope and requirements can be added. Notification of such changes will be provided to all vendors.

D. Evaluation criteria

1. Fulfillment of regulatory compliance is compulsory. The service provider should:
 - be able to conduct all testing in accordance with applicable Good Manufacturing Practice (cGMP) and Good Laboratory Practice (GLP) regulations
 - have an outstanding track record in audits by US FDA, China NMPA, and other agencies
 - demonstrate a body of Standard Operating Procedures and a documented training system which ensures all technical staff can capably perform their assigned procedures
 - be equipped with a qualified lab record system, and demonstrate a quality assurance unit that routinely audit all aspects of lab operations

If the service providers pass criterion no. 1, the responses will be assessed using the following criteria and weightings:

2. The price should be competitive with reasonable payment terms (50%)
3. The service provider shows a record of successfully delivering CMC data of biologics drugs for filing of IND to FDA or to other agencies (30%)
4. The innovation and added value as well as the strategic fit of the service provider will also be considered (20%)
5. The procurement contract will be awarded to the service provider with the highest assessment scores
