

# TCARE for Child Welfare: Customized Care for Families and Caregivers

TCARE is an evidence-based caregiver assessment and program designed to support family preservation, delivering measurable outcomes that promote stability and long-term success for children, families, and caregivers.

## Proven Impact and ROI in Child Welfare: Targeted ROI

Investing in caregiver support helps reduce costly system utilization by stabilizing families earlier, lowering placement disruptions, and improving long-term outcomes.

## Key Benefits of TCARE:

### Tailored Caregiver Support:

Trained, licensed clinical and non-clinical teams address diverse caregiver needs based on level of need and risk.

### Population-Specific Protocols:

Programs for biological parents, kinship caregivers and foster parents.

### Placement Stability:

Improves reunifications, fosters resilience, addresses trauma needs, and strengthens families.
