

# Spa Mukul

GUACALITO, NICARAGUA

The Spa Mukul offers two distinct experiences, each housed in a separate, private spa sanctuary. Each one embraces a different ancient healing tradition, often incorporating local Nicaraguan ingredients.

At this spa, there's no conventional check-in at a front desk or waiting in a reception area. Instead, guests are personally escorted to their pre-booked private spa. Upon arrival at the spa temple, therapists welcome guests in the private entry garden with a footbath ritual and other treatments tailored to individual needs.

It is then that all sense of time appears to dissolve, allowing guests to step away from the everyday world.
