

## *Public Art near the Hub*

### **Public art as a catalyst for building community and revitalization**

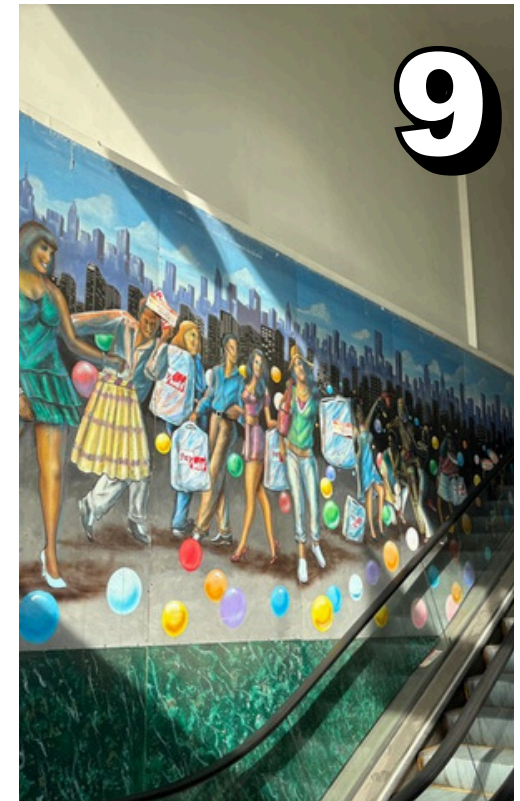

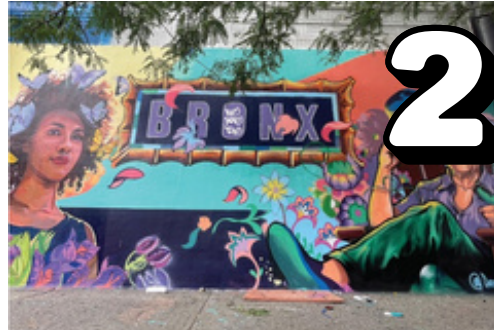

We believe that **public art** is **stewardship**. Public art can send an important message - this community is loved and valued. Thriving communities are possible when there is shared accountability and common purpose. Public art is a visual and physical representation of that stewardship. We hope that you take the time to visit and learn more about the public art in our district - and more importantly, the history, culture, and people behind the art. Please see Pages 2 and 3 for more information.

#### About the BID

The Third Avenue Business Improvement District's mission is to keep one of New York City's most trafficked commercial districts clean, safe, attractive and well programmed for businesses, employees, community residents, and visitors while promoting economic development in the South Bronx. To learn more, visit [thirdavenuebid.org](http://thirdavenuebid.org).
