

## Sponsorship Opportunities SURPAVE

SURPAVE is primarily funded through Erasmus Mundus Joint Master (EMJM) scholarships for four student cohorts. To ensure the long-term sustainability of the programme and to cover additional operational and innovation-related costs, industry and institutional sponsorships are essential. In all sponsorship arrangements, academic independence and integrity remain fundamental principles of the SURPAVE programme.

### Forms of Sponsorship

SURPAVE offers several flexible pathways for organizations to engage as sponsors:

#### 1. University-Industry Collaboration

Industrial Associated Partners may collaborate with SURPAVE in the areas of:

- Innovation processes,
- Project proposal development,
- Applied research and consultancy.

When students are actively involved and supervised by SURPAVE staff, the generated revenues will be allocated to SURPAVE. In cases where SURPAVE staff are engaged as a multidisciplinary expert team to address specific challenges, 50% of the generated revenue will be allocated to the SURPAVE programme.

#### 2. Hosting students during Industrial Training Projects and dissertation (paid internships)

Organisations may host SURPAVE students for:

- Industrial training project,
- Master's thesis research.

The hosting organization may provide:

- Accommodation,
- Travel and living reimbursements,
- A salary or stipend.

Such placements contribute directly to students' professional development while strengthening industry-academia collaboration.

#### 3. In-kind contributions

SURPAVE welcomes in-kind sponsorships, including but not limited to:

- Equipment or laboratory access,
- Software licenses,
- Datasets,
- Hosting lectures or practical classes,
- Covering participation fees for summer schools or training activities.

In-kind sponsors are recognized at different sponsorship levels, depending on the scope and value of the contribution.

#### **4. Sponsorship Packages (or Equivalent Value through the above options)**

SURPAVE offers several sponsorship levels, allowing organisations to support the programme and its students while benefiting from strong visibility, engagement, and recruitment opportunities. With the revenues of Platinum and Gold level, 75% will be spent to support students (without an Erasmus Mundus scholarship; their fee, accommodation, travel, ....) and 25% will be used to support the Joint Master in general.

Following options are possible:

##### **Platinum Sponsor (€20,000 per year)**
