To: All importers of Cosmetics,

**Instructions for ASYCUDA Document Submission**

All importers of cosmetic products are hereby informed that, in order to facilitate a more efficient ASYCUDA clearance process and to avoid unnecessary delays, the following document submission requirements shall be strictly adhered to.

- For each respective product, the Registration Certificate, Import License, and approved product label must be merged and uploaded as one consolidated PDF file.
- The combined document must be clearly renamed using the exact product name before uploading to the ASYCUDA system.

Adherence to these requirements will support efficient document verification and help prevent processing delays.

Thank You,

  
 CEO  
 NMRA
