Living areas

The main living room has double-height ceilings and a central fireplace, with seating arranged for large groups without losing intimacy. To the west, a quieter library and wine room, both with views down the valley.

The dining room sits between the living room and the library, opening onto the terrace for meals outside when conditions allow.

Wellness and entertainment

The lower floor is given over to recovery. A 7 x 3 m indoor pool sits beneath full length looking out to the garden, with loungers for slower afternoons.

There is also a steam room, sauna, massage room, fitness centre and cinema room, and a hot tub set into the terrace with views of the slopes.
