## Summary

I have an eye for compelling performances and effective audience engagement. I comprehensively examine footage, craft performances and story, and creatively shape the viewing experience. I use countless editing tools and tricks to manipulate footage, change contexts, reimagine scenarios, and create new possibilities. I'm committed to delivering captivating stories and experiences with a sharp focus on thorough details. I have eclectic experience in comedy, drama, action, suspense, music, art-house, commercial, documentary, web/social, and more. I maintain optimism. I eagerly seek solutions. I embrace wide ranging points of view, backtested against my own unique perspective. I enjoyably collaborate with directors, writers, and producers on nuanced adjustments. I am reliable and experienced in fast-paced environments requiring tight deadlines. I am dedicated to artful, entertaining, and emotionally-effective storytelling. I'm originally from Oakland, and have lived in Los Angeles for 25 years. I love concerts, art museums, nature, the universe, movies, and immersive experiences. I also use cameras, shoot timelapse, record sound, make music, and write screenplays.
