www.eGoldFax.com

Portal Administration Authority

Customers can authorize their eGoldFax reseller to handle the initial installation and configuration of the eGoldFax portal using the necessary customer information. This may include specifying the numbers to be ported, providing forwarding email address details, and configuring the Puller Downer feature to store received faxes on the customer's local network.

On behalf of (Customer's Name) _____

I, (Authorized Name) _____

Authorized Signature _____

I grant authority for the following individual(s) to administer and configure the eGoldFax portal (*Please, only one name per email. Two-factor authentication does not work for email groups*):
