About me

UX/UI Designer I 5+ Years of Experience I M.S. in HCI

Creative and analytical UX/UI designer with 5+ years of experience crafting intuitive, accessible, and data-driven digital products. Proven success in user research, usability testing, and accessibility compliance—leading to increased engagement, conversion (31%), and \$1M in funding. Adept at collaborating cross-functionally to align design with business goals.

Experience

UX product manager

BetterWorld

- Developed a user feedback system processing 60+ monthly submissions, driving data-informed decisions.
- Monitor product KPIs to identify UX opportunities and deliver measurable improvements.
- · Conducted a full accessibility audit, identifying 20+ WCAG 2.1 issues and delivering remediation strategies.

UX/UI product designer

StudentUniverse

- · Launched a usability testing program with standardized research templates and frameworks.
- · Led an accessibility initiative improving WCAG 2.1 compliance and overall user experience.
- · Boosted bookings by 31% through UX recommendations on the Next Generation Storefront.
- Mentored a UX intern on usability audits, competitive analysis, and prototyping in Figma.

UX/UI designer (contract)

January 2020 - August 2022

Remoscope

Collaborated with engineers to design a medical device app UI that helped secure \$1M in funding.

Post Carbon Institute

 Used Google Analytics to assess engagement across three sites; designed usability improvements to lower bounce rates.
