

Welcome to the fourth edition of the Chief Sustainability Officer Awards, taking place in the vibrant heart of New York City. This event honors the visionary leadership and innovation driving more desirable futures for our planet.

We believe in a future where ideas, innovation and business drive a regenerative economy that benefits people and planet. It is our mission to provide Sustainability Leaders and Innovators with the knowledge, tools and network to co-create desirable futures within planetary boundaries.

We emphasize the plural nature of "futures" because our vision encompasses a systemic approach that delves into the future of every field and sector. From education and work to technology, mobility, medicine, agriculture, and beyond, we believe in addressing the diverse futures that lie ahead by fostering radical collaboration and cross-pollination.

Harald Neidhardt
CEO & Curator,
Futur/io Institute

In New York, we gathered to celebrate the remarkable work and achievements of prominent North American Chief Sustainability Officers, fostering connections with like-minded change makers.

The Futur/io CSO Awards, an esteemed recognition in the realm of corporate sustainability, celebrates the outstanding contributions of Chief Sustainability Officers (CSOs) who have demonstrated exemplary commitment and leadership in advancing sustainability practices within their organizations.

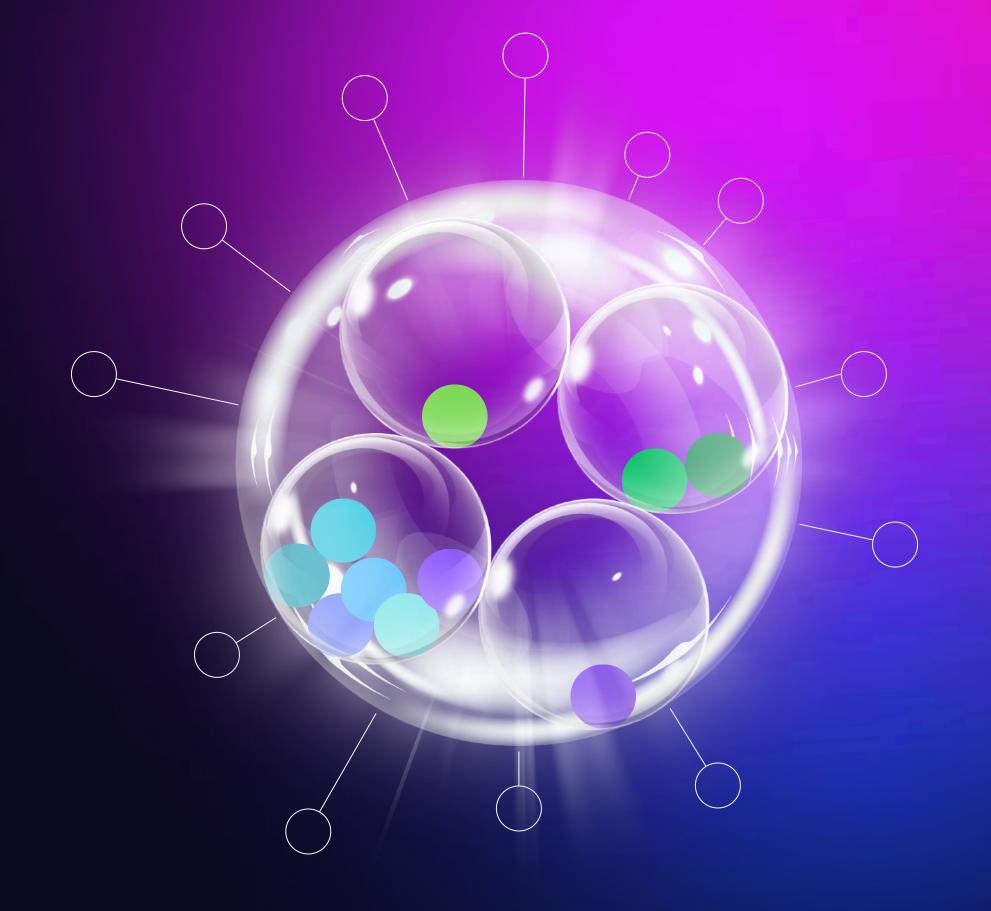

Criteria & Selection Process

In order to include the human factor for these CSO Awards, this criteria was developed in collaboration with multiple actors within academia, research and analytical tools - plus collaboration with advisors and members of the Grand Jury from previous editions.

The 20 Nominees selection process uses:

12 indicators across 4 dimensions and 10 data scores

to assess influence and impact.

The indicators are quantitative (i.e. number of followers on Linkedin) and qualitative (i.e. Highest Sustainability representative of the company or group with executive roles.) Indicators, dimensions, and data scores are not weighted equally. The specific balance of weights given to each data score was balanced with our scientific and knowledge partners and remains confidential to preserve the integrity of future CSO Awards.

12 INDICATORS

Company Level

- 01. Over \$1 Billion annual revenues.
- **02**. Published **NetZero goal of 2040** or earlier
- **03**. Company **headquarters** must be based within the **USA or Canada**.
- 04. Company Headcount +5k employees
- O5. The awards **do not include oil & gas, defence, and consulting companies**, or related industries.
- O6. Companies that have **published the latest** sustainability report by August 8, 2025 (data source must include at least the first quarter of 2024) are eligible to be considered among the 20 nominees for the awards.

CSO Level

- **07**. We consider the **job titles** of Chief Sustainability Officer or equivalent, operating a C-level or direction position, such as:
 - Head of Sustainability
 - VP Sustainability
 - Vice President Sustainability
 - Director of Sustainability
 - Head of ESG
 - ESG Director
 - Senior Vice President Sustainability
 - Global Sustainability
 - Senior VP Sustainability
 - Directeur du développement durable
 - Vice-président développement durable
 - Vice President sostenibilidad
 - Director de Sostenibilidad
 - Leiter Nachhaltigkeit
 - VP Nachhaltigkeit
- 08. Highest Sustainability representative of the company or group with executive roles.
- **09**. Only **1 CSO/equivalent role per group** or affiliated companies.

- 10. CSO at least 1 year in the current position to be eligible for further nomination stage (one year before September 22, 2025).
- 1. Thought leadership ranked by the **numbers** of followers on LinkedIn and public appearances.
- **12.** All special mentions and winners from previous editions are eligible to join the Top100 CSOs list.

10 DATA SCORES

Science & Behaviour based Maturity Index -Imperial College (External Research Based) The Leonardo Centre at Imperial College has created a comprehensive global dataset that analyses corporate sustainability behaviours, enabling a thorough assessment of the maturity levels of the top 100 companies.

Imperial College Maturity Index

NetZero Goal & ESG Qualitative Rating (External Research Based) By utilising publicly available ESG Ratings, we evaluate companies that are exceeding regulatory requirements in their advancements on SDG and ESG criteria. The maximum goal for eligibility is the year 2040, for achieving the NetZero target.

Planet

(Internal & External Research Based)

& People

(External Research Based)

Futur/io trained an AI tool to analyse 100 sustainability reports from chosen companies, extracting pertinent information on Greenhouse Gas emissions, Biodiversity measures, and Water usage.

Additionally, the partners Rainforest Partnership, Denominator and ClimateGPT carried out an in-depth analysis on biodiversity, DEI and public sentiment aspects of each company respectively.

Survey & Self-Assessment (Internal Research Based) Based on external ESG Ratings, we have developed a Survey & Self-Assessment, and have invited the top 100 CSOs to take part in it. The Survey responses generated a score that was included in the final ranking.

- ESG Qualitative External Score
- NetZero Score
- GreenHouse Gas
- Biodiversity
- Water
- Denominator DEI
- Rainforest TRII Index
- ClimateGPT Score
- Futur/io Survey Score

Winners Selection

Grand Jury

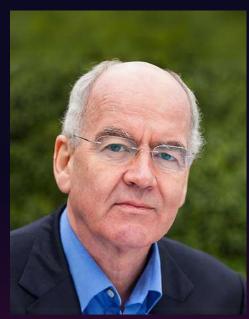

Our Grand Jury is a group of experts dedicated to shaping the future of sustainability.

With decades of combined experience across various sectors, these individuals choose the Awards' winners from the 20 Nominees.

A Grand Jury vote determines the winners, emphasising the importance of the human factor.

With more than 15 years of experience in corporate responsibility and sustainability, Aditi Mohapatra brings a unique perspective shaped by her work across ESG investing, corporate strategy, and cross-sector partnerships. She is passionate about harnessing business as a driver for positive social and environmental impact, with a career that bridges finance, consulting, and corporate leadership. At Expedia Group, she champions the company's belief that "travel is a force for good" by leveraging its platform, data, and partnerships to shape a more inclusive and sustainable travel industry.

Before joining Expedia Group, Aditi served as Managing Director at BSR, where she led the organization's global work on women's empowerment and advanced diversity and inclusion initiatives across industries. Earlier in her career, she was part of Calvert Investment Management, a pioneer in sustainable investing, where she focused on ESG research and corporate engagement, particularly on gender equality and governance.

Aditi holds an MBA in Finance from George Washington University and a B.S. in International Economics from the University of Florida.

Sustainability report *≯*

TIFFANY& CO.

Annika Dubrall is proud to lead the Sustainability & Philanthropy team at Tiffany & Co., focused on Climate, Product Traceability & Ocean Conservation.

At Tiffany & Co. sustainability lies at the heart of everything we do. We are dedicated to protecting the natural world by taking bold action on climate change and conservation. We strive to set the standard for sustainable luxury, from sharing the origins of our primary raw materials to investing in the artisans who craft our jewelry. Since 2000, The Tiffany & Co. Foundation has awarded over USD \$100 million to support organizations around the world in the areas of coral conservation, responsible mining, urban parks and the decorative arts. As The Tiffany & Co. Foundation enters its third decade we are committed to protecting oceans. The Foundation supports organizations that work to drive large scale marine protection, coral conservation and blue carbon exploration.

As a Sustainability & Philanthropy leader, I love solving tough challenges and collaborating across functions and cultures to build strategic plans that stick. I partner with diverse stakeholders to create robust multi-year roadmaps intended to drive shared commercial, environmental and social benefit. At Tiffany & Co., I am thrilled to draft sustainability strategies that draw on the strength and legacy of craftsmanship, proving that luxury and sustainability can co-exist and thrive.

Ara Erickson is the Vice President of Corporate Sustainability at Weyerhaeuser, the largest private timberland owner in the U.S. and one of the largest sustainable forest product companies in the world.

In this role, Ara leads the comprehensive, company-wide sustainability strategy for Weyerhaeuser as well as the corporate sustainability team.

Ara believes that Weyerhaeuser has a unique responsibility and unmatched ability to provide nature-based solutions that mitigate the impact of climate change and benefit the environment and the communities closest to forests. She leads the company's efforts to create and implement broad support for nature-based climate solutions, including the role of sustainable products in ensuring housing for all and ensuring rural communities are thriving places to work and live.

Ara is the board chair for American Forests, the oldest national conservation nonprofit in the United States, a steering committee member of the World Business Council for Sustainable Development's Forest Solution Group, and a founding member of Women's Forest Congress. Ara received her M.S. in Forest Resources from the University of Washington and her B.S. in Resource Management from the University of California, Berkeley.

Anu Piduru is the Senior Director of Sustainability at Carter's, the largest branded marketer in North America of baby and children's apparel. She leads Carter's environmental sustainability strategy and heads the company's ESG reporting efforts, including voluntary and regulatory reporting.

Over the course of Anu's nearly 20-year career, she has amassed sustainability and environmental compliance experience in the aviation and retail industries, including waste reduction and management and decarbonization. Prior to her role at Carter's, she worked in sustainability and environmental compliance for Delta Air Lines for nearly 15 years.

She has served her local community as a board member for organizations focused on water resource preservation and landfill diversion. She is currently on the board for Atlanta, Georgia's LiveThrive organization, which owns and operates the Centers for Hard to Recycle Materials, and she serves on the Executive Committee for the Leukemia and Lymphoma Society's annual Light the Night walk in Atlanta.

Anu earned her BS in Civil and Environmental Engineering and so has been dedicated to the environment from a young age.

She enjoys spreading awareness and education around sustainability, especially to her three children.

Emma Stewart, Ph.D., is Netflix's first Sustainability Officer, where she works to achieve net zero carbon emissions, raise environmental awareness through awareness through film and television series, and drive climate action among Netflix's global audience. She previously led urban energy and climate initiatives at the World Resources Institute, served on the U.S. Green Building Council Board, and taught at UC Berkeley and Stanford business schools. She holds a Ph.D. from Stanford and a B.A. with Honors from Oxford University.

Throughout her career, she helped many Fortune500 companies in developing sustainability strategies, advised start-ups, led research at top NGOs and think tanks, and served on Boards of Directors. She also pioneered the "Intrapreneurship for Sustainability" courses at Stanford and UC Berkeley and developed the first global methodology for "science-based targets," a concept now adopted by over 10,000 companies.

Selected as an Aspen Institute Fellow, her work appeared in top publications like The Economist, The Wall Street Journal, and The New York Times. She has been named a "Badass Woman in Sustainability" by GreenBiz, a "top 3 speaker" by The Economist Summits, one of FORTUNE's "most powerful women under 45," and one of the "Top 10 Women in Sustainability" by American Builders.

Hélène V. Gagnon is Chief People and Sustainability Officer at CAE and is a member of the Executive Management Committee. In her role, Hélène leads all aspects of the company's Human Resources organization globally, while harnessing the power of our people and creating an exceptional workplace. She acts as a role model and driver of CAE's innovative, inclusive and collaborative culture, and is a strong advocate of CAE's people as one of the company's most competitive advantages.

Hélène also leads CAE's sustainability, environment, health and safety and social impact strategy across CAE's worldwide operations, and as a true business partner, helps CAE fulfill its strategic objectives and mission of making the world safer and more sustainable. She is accountable for CAE's global communications with employees, media and other stakeholders as well as collaboration, government programs (R&D) and academic partnerships.

Before joining CAE in 2015, Ms. Gagnon worked for 11 years at Bombardier, the last eight as Vice President, Public Affairs, Communications, Corporate Social Responsibility and Achieving Excellence System for Bombardier Aerospace, at the time, the third largest civil aircraft manufacturer. From 2003 to 2007 she was Senior Director of Public Affairs at Bombardier Transportation.

Jennifer Motles joined Philip Morris International (PMI) in 2015 and has served as the company's Chief Sustainability Officer (CSO) since October 2020. In this role, she orchestrates the company's ambitious sustainability agenda as it seeks to have a net positive impact on society.

In her tenure with PMI, Jennifer has helped craft the company's statement of purpose and expanded its sustainability strategy. As CSO, Jennifer is standardizing how PMI measures and reports on sustainability performance while accelerating the pace of the company's sustainability initiatives, including bringing forward its carbon neutrality targets to decarbonize its direct operations by 2025 and its entire value chain by 2040. Jennifer also spearheads the company's annual Integrated Report, which communicates the progress PMI is making toward its sustainability aspirations, including its transformation to accelerate the end of smoking. She led the development of PMI's KPI Protocol, made publicly available in 2022, which aims to provide further transparency on the key metrics used to measure how the company is progressing towards achieving its purpose and creating value for shareholders and other stakeholders.

Jennifer holds a Juris Doctor degree from Universidad de Chile— Escuela de Derecho and a Master of Laws degree from University of California, Berkeley School of Law.

As Vice President of Sustainability, Kate Heiny leads sustainability across Booking Holdings' operations, products and communities. She is responsible for leading the company's strategy to help build a more sustainable travel industry as a global leader in the industry, in addition to deepening strategic alignment and impact across the company's brands. Her team's remit includes programs focused on product innovation and partner support, as well as collaboration with stakeholders across the industry.

Kate joined Booking Holdings from Europe's largest online fashion platform Zalando, where she served as the Director of Sustainability and Corporate Citizenship for over three years. During her tenure, she launched the company's sustainability strategy, including publishing its first Corporate Digital Responsibility Report in cooperation with the German government, and moving to almost exclusively recycled and recyclable packaging materials. Prior to Zalando, Kate spent the early part of her career at Target Corporation before moving to Europe to serve as the Head of Global Sustainability at C&A, a retail apparel and fashion company.

In 2023, Kate was elected to the Global Sustainable Tourism Council's Board of Directors, the organization responsible for establishing and managing global standards for sustainable travel and tourism. Throughout her career, Kate has been active on the Board of Directors at Higg Co, an integrated digital platform that enables brands, retailers, and manufacturers to accelerate their sustainability progress; the Sustainable Apparel Coalition, where she served as Chairwoman; and Organic Cotton Accelerator.

Wendy Rentschler leads global sustainability, inclusion, and corporate citizenship at BMC Software, where she drives the company's ESG strategy, net-zero goals, and responsible innovation agenda. With over two decades of experience across the healthcare and technology sectors, she aligns digital transformation with environmental and social impact—embedding climate-conscious infrastructure, ethical AI, and equitable access into BMC's global operations and partner ecosystem.

Wendy is a passionate advocate for responsible technology and sustainable innovation. She leads initiatives to ensure emerging technologies—especially artificial intelligence—are developed and deployed in ways that promote environmental responsibility, social justice, and digital equity. Her latest work reframes generative Al as a catalyst for a clean energy future, championing strategies that shift Al workloads to low-carbon cloud regions, align compute with renewable grid peaks, and invest in energy-efficient hardware to drive green innovation at scale.

A cross-sector collaborator, Wendy works closely with peers across financial services, telecom, healthcare, and government to shape sustainability frameworks that influence industry-wide change. She is actively involved in global initiatives through the UN Global Compact, UN Women HeForShe, TiE Global, and Hacking HR's Executive Experts Council.
