

Exocase™

**Completely
Customisable
Cases.**

About Exocase

The EXOcase is a British product that combines the convenience of a fabricated case with the durability of a moulded transit case. Its unique exoskeletal design ensures maximum protection of high-value instrumentation and sensitive equipment during storage and transportation.

Tested to Military Standards

MSA Foams can also develop an MPAS (Military Packager Accreditation Scheme) solution to meet specialist defence requirements.

Key Features

- CNC Machined Foam Inserts
- Aluminium Box Section Frame for Lightness and Strength
- Replaceable Corners and Outer ABS Extrusions
- Modular Design for Ultimate Flexibility of Construction & Size
- Wide Range of Colours to Suit Corporate Identities & Brands
- Designed & Manufactured in the UK

- Moulded Polyurethane Corners for Shock Absorption
- Neoprene Seal Between Lid & Base
- A Range of Fittings to Suit the Application
- Unique Double Brace System
- Internal Stainless Bracing for Strength & Corrosion Resistance

From custom foam inserts to advanced case systems like EXOcase™, we design and manufacture with precision, performance, and protection in mind.
