The Confederated Tribes of the Chehalis Reservation have called this land home for countless generations

Rooted along the Chehalis River, the Tribe has long been known for its strength, resilience, and deep connection to the land and waters that sustain us.

The name Chehalis comes from a word meaning "shifting sands," a reminder of the ever-changing river and the adaptability of the people who have thrived here for centuries. The Tribe's traditions of fishing, hunting, and gathering continue to guide our values today, honoring the natural world and respecting the gifts it provides.

Talking Cedar was created to celebrate both innovation and tradition. As the nation's first tribal-owned craft brewery and distillery, it stands as a symbol of progress while honoring the heritage that grounds us. The cedar tree, revered in our culture for its strength and healing qualities, inspires our name and our spirit.

When you enjoy a meal or drink here, you share the story of the Chehalis people, a story of perseverance, community, and respect for the land. We are proud to welcome you and thank you for being part of our journey.
