

# CHECK VALVES

REV040326

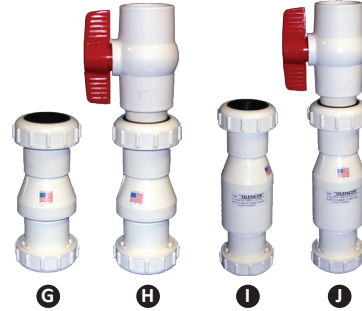

Certain models available with clear housings, special order only

## RUBBER HOSE, SLIP X SLIP

Designed for standard residential sump pump applications

Rubber hose check valves install easily on standard sump lines, fit copper/PVC/IPS pipe, and mount vertically or horizontally. Convex nested flappers and a hydrodynamic design ensure long and silent life, hammer-free operation. Features: Stainless worm gear clamps, textured housing for grip, and a durable, gasketless injection-molded ABS body.

## COMPRESSION SWING

Designed for standard sump pump applications

Compression valves install easily—no glue required—for standard sump pump lines. Nested convex flappers ensure long life, while ball valves use EPDM O-ring seats. Durable, gasketless injection-molded ABS housing fits PVC pipe and operates silently to eliminate water hammer.

## TRUE UNION SWING

Designed for heavy duty use on home ejector pump applications

True union coupling allows easy swing-out for service or inspection with EPDM O-ring seals. Nested convex flappers ensure long life, and ball valves use EPDM O-ring seats. Durable, gasketless injection-molded ABS housing (on select models) fits PVC pipe and operates silently to eliminate water hammer.

## SLIP X SLIP

Designed for standard sump pump applications

Slip x Slip valves install quickly over PVC pipe. Nested convex flappers ensure long life and a hydrodynamic design. Durable, gasketless injection-molded ABS housing fits PVC pipe and installs vertically or horizontally, with silent operation to eliminate water hammer.

| Ref ID | Model        | Size            | Description                               | Carton QTY |
|--------|--------------|-----------------|-------------------------------------------|------------|
| A      | APCV150      | 1 1/2"          | ABS CHECK VALVE                           | 24         |
| B      | APCV1C0      | 1 1/4" & 1 1/2" | COMBINATION ABS CHECK VALVE               | 24         |
| C      | APCVFF15     | 1 1/2"          | FULL FLOW ABS CHECK VALVE                 | 24         |
| D      | APCV200      | 2"              | FULL FLOW ABS CHECK VALVE                 | 12         |
| E      | APCVSL15     | 1 1/2"          | SILENT CHECK VALVE                        | 16         |
| F      | APCVSL20     | 2"              | SILENT CHECK VALVE                        | 12         |
| G      | APCVCMP200   | 2"              | COMPRESSION SWING CHECK VALVE             | 6          |
| H      | APCVBCC200   | 2"              | BALL/CHECK COMPRESSION SWING COMBO        | 6          |
| I      | APCVCPSL20   | 2"              | SILENT COMPRESSION SWING CHECK VALVE      | 6          |
| J      | APCVBCCSL2   | 2"              | SILENT BALL/CHECK COMPRESSION SWING COMBO | 6          |
| K      | APCVUN150    | 1 1/2"          | TRUE UNION SWING CHECK VALVE              | 9          |
| L      | APCVUN200    | 2"              | TRUE UNION SWING CHECK VALVE              | 6          |
| M      | APCVUNC150   | 1 1/2"          | BALL/CHECK UNION SWING COMBO              | 9          |
| N      | APCVUNC200   | 2"              | BALL/CHECK UNION SWING COMBO              | 6          |
| O      | APCVUNSL15   | 1 1/2"          | SILENT TRUE UNION SWING CHECK VALVE       | 9          |
| P      | APCVUNSL20   | 2"              | SILENT TRUE UNION SWING CHECK VALVE       | 6          |
| Q      | APCVUCSL15   | 1 1/2"          | SILENT BALL/CHECK UNION SWING COMBO       | 9          |
| R      | APCVUNCSL2   | 2"              | SILENT BALL/CHECK UNION SWING COMBO       | 6          |
| S      | APCVSLIP15   | 1 1/2"          | SLIP x SLIP ABS CHECK VALVE               | 24         |
| T      | APCVSLIP20   | 2"              | SLIP x SLIP ABS CHECK VALVE               | 12         |
| U      | APCVSLIPSL15 | 1 1/2"          | SILENT SLIP x SLIP ABS CHECK VALVE        | 24         |
| V      | APCVSLIPSL20 | 2"              | SILENT SLIP x SLIP ABS CHECK VALVE        | 12         |
