

EP Patents (Last Updated: 12th February 2026)

Ocado products are protected by patents and other intellectual property rights.

This webpage is provided to comply with patent marking statutes in EPC contracting states. The reader is advised to check the European Patent Register to confirm in which EPC contracting states the patents are currently in force, and whether the patents have unitary effect. The following list of products and patents may not be comprehensive. For example, some products listed here may be protected by patents that are not listed, and other products not listed here may be protected by one or more patents. The absence of a product or a patent number from this list does not constitute a waiver of Ocado's patent or other intellectual property rights concerning that product or patent.
