

# Reducing Healthcare Cost To Increase EBITDA & TEV

Not a Theory. Not a Forecast. A Proven Lever for Value Creation.

## Private Equity Client Case Study

**ProVision Health is a next-generation group health benefits platform engineered to drive down total healthcare spend by 20-25% without sacrificing access, quality, or compliance.**

Built on the nation's largest and most trusted PPO network. Powered by proprietary claims adjudication technology, ProVision disrupts traditional PPO models through advanced analytics, precision pharmacy strategies, concierge member support, and favorable stop-loss terms. It's not just another health plan – it's a performance-optimized financial lever for portfolio companies looking to boost EBITDA, simplify administration, and mitigate risk in an era of rising healthcare costs.
