

Built for Savings. Powered by Technology. Designed for People.

That's the Power of AMPS.

In today's complex healthcare landscape, your clients need more than just savings. They need confidence, clarity, and a partner who prioritizes the member experience. That's where AMPS comes in.

AMPS is a diversified healthcare technology company delivering transparent, affordable medical, pharmacy benefits, and cost containment. Our proprietary SaaS tools and tech-enabled services are designed with self-insured employers, TPAs, brokers, consultants, HealthShares, payors, and health plans in mind.

Every solution we offer is built with people in mind and designed to simplify the experience, ease the burden on members and administrators, and deliver meaningful results for everyone involved.

What if you could consistently deliver:

- **25–35% average medical claim savings** vs. PPOs through dynamic repricing
- **93% member satisfaction** for member interactions with PriceDynamix
- **50%+ pharmacy savings** with Drexii as compared to traditional PBMs
- **92% Generic Dispensing Rate (GDR)** as compared to traditional PBMs
- **Up to \$9M saved** annually per 500K members through ClaimInsight

Let's Talk Strategy.

Whether you're advising a client or managing a plan, AMPS helps you uncover savings, simplify processes, and improve the member experience.

Our flexible solutions work independently or together to meet your needs and build the right strategy for your goals.

Our Solutions

PriceDynamix

Precision Repricing. Maximum Savings. Member-Driven Care.

Provides advanced repricing, direct provider engagement, and member driven advocacy to deliver long-term savings through a smarter, more sustainable repricing model.

Drexii

Drexii disrupts the status quo of traditional PBMs.

Empowers plans and members with transparent pricing, smarter savings, and honest pharmacy benefit management - no hidden fees, ever.

ClaimInsight

ClaimInsight brings visibility and trust back to the claims process.

Through automation, physician-led reviews, and real-time policy logic, we help clients eliminate waste and reduce overspend with complete integrity.
