

**Subject: Afak Techniek bv will continue with the Franken products in the Mussel Industry.**

Dear Customer,

We are proud to announce that **Afak Techniek B.V.** will now continue with the products of **Franken Inox B.V.** in the mussel industry. The contract was officially signed on December 12, 2025, marking the start of an exciting collaboration.

**About Afak Techniek**

Afak Techniek has been a trusted partner in the seafood and shellfish industry for over 30 years, delivering innovative technical solutions for processing and handling. Our mission is to provide reliable, efficient, and sustainable technologies that help our customers succeed.

**Our Core Services Include:**

- **Engineering & Design:** Tailor-made technical solutions for seafood and shellfish processing.
- **Maintenance & Support:** Preventive and corrective maintenance to ensure maximum uptime.
- **Automation & Control Systems:** Advanced systems for optimized production processes.
- **Installation & Commissioning:** Complete setup and integration of equipment.
- **Consultancy & Training:** Expert advice and training for your team to maximize efficiency.

By combining the expertise of both companies, we aim to bring this specialized technology back to the forefront. This partnership ensures for you:

- **Innovation and reliability** in the products you trust
- **Expanded knowledge and service** through our combined experience

If you have any questions or need more information, please feel free to contact:

- **Afak Techniek – [Afak@Afak.nl](mailto:Afak@Afak.nl)**
- **VAM Watertechniek – [info@VAM-Watertech.com](mailto:info@VAM-Watertech.com)**

We are looking forward to delivering the quality and support you expect.

Best regards,

  
Jan-Willem Schoneveld
