Transform Longevity Care with Salt Therapy

Enhance Patient Outcomes and Elevate Your Practice

Integrating salt therapy into your practice offers a scientifically supported wellness modality that aligns perfectly with the focus on longevity and whole-person care. Studies confirm that optimal respiratory health is a cornerstone of quality and longevity of life. By offering salt therapy, you provide an innovative, touchless solution that supports respiratory and skin health, helping your patients thrive while adding value to your practice.

- ✔ **Improve lung function**
- ✔ **Boost the immune system**
- ✔ **Enhance mental wellness and Reduce Stress**
- ✔ **Rejuvenate the skin**
- ✔ **Increase Athletic performance, Endurance and Recovery**

SALT Chamber offers cutting-edge solutions that delivers concentrated halotherapy sessions in as little as 10 minutes. This provides both flexibility and efficiency. Salt therapy fits seamlessly into any practice, whether as a standalone service or combined with other wellness modalities for enhanced benefits.

Why Add Salt Therapy?

- ✔ **Evidence-Based Results: Effective for respiratory and skin conditions**
- ✔ **Efficient and Scalable: Low labor requirements and touchless operation make it a highly profitable addition**
- ✔ **Patient-Centric Care: Aligns with patient needs for non-invasive, natural solutions**

“

As a Respiratory Therapist, I witnessed the impact of Halotherapy (Dry Salt Therapy) on my patient with Cystic Fibrosis. Salt's natural properties make it remarkably effective at reducing mucus, fighting inflammation, and absorbing toxins in the lungs. Its benefits extend beyond respiratory conditions like CF, COPD, and asthma – it even helps with skin conditions. This therapy offers a natural, potent solution for those seeking alternative treatments.

Ana Cruz Carrillo
Certified Respiratory Therapist

As founder of Well Infused, adding salt therapy transformed our practice. Not only does it provide innovative health solutions, but it's also elevated our entire client experience. We've seen remarkable increases in client engagement and retention since introducing this service. The salt therapy room perfectly complements our other offerings while creating a unique, extraordinary environment that sets us apart.

Dr. Staci Blume
Well Infused

...I have seen patients with other respiratory diseases derive significant benefit from halotherapy including bronchiectasis, chronic bronchitis, chronic sinusitis and allergic rhinitis... It is worth noting that many patients have also noticed benefits in non-respiratory conditions, particularly dermatological conditions such as acne and psoriasis...

”

Dr. Daniel T. Layish
M.D. Pulmonologist

Turning SALT into Revenue

The SALT Room

The costs for designing and installing a salt room vary depending on the size of the room, décor and lighting packages, furniture, and fixtures. The size of the room will help determine the length of time needed for your return on investment. A smaller room may have 1 to 2 chairs at \$25 each for a 45-minute session, while a larger room may have 6 to 8 chairs for the same price and length.

The AERO Salt Booth™

In contrast to building a room, adding an AERO Salt Booth™ requires no construction, no build-out, and a session can be as short as 10 minutes. Since there is less cubic airspace inside an AERO Salt Booth™, the customer experiences a higher concentration level of salt. An AERO Salt Booth™ allows you to offer dry salt therapy using a small, underutilized space in your facility. Imagine turning a 4' x 4' space into a \$6,000 or more per month profit center.

PROFITABILITY PROSPECTIVE:

UTILIZATION	SESSIONS/DAY	PROFIT/DAY	PROFIT/MONTH	PROFIT/YEAR
1 to 2 people	4	\$100 to \$200	\$3,000 to \$6,000	\$36,500 to \$73,000
3 to 6 people	4	\$300 to \$600	\$9,000 to \$18,000	\$109,500 to \$219,000
7 to 8 people	4	\$700 to \$800	\$21,000 to \$24,000	\$255,500 to \$292,000

Based on an average of \$25 per person per 25- to 45-minute Salt Room session (7 days/week - 8 hours/day)

PROFITABILITY PROSPECTIVE:

UTILIZATION	SESSIONS/HOUR	SESSIONS/DAY	PROFIT/DAY	PROFIT/MO	PROFIT/YR
High	3	24	\$600	\$18,000	\$219,000
Moderate	2	16	\$400	\$12,000	\$140,000
Low	1	8	\$200	\$6,000	\$73,000

Based on an average of \$25 per 10-minute AERO Salt Booth™ session (7 days/week - 8 hours/day)

AERO Booth™ Options

OPTION 1

AERO SALT Booth™

Why Choose This Option: Ideal for facilities focusing on respiratory health, allergy relief, and quick wellness boosts. Offers a unique, fast service that can easily fit into clients' busy schedules.

TRANSFORM RESPIRATORY HEALTH IN JUST 10 MINUTES

- + Includes **SALT FX™** aero Halogenerator (a \$2,195 value)
- + Compact 36x36" footprint
- + Commercial-grade performance
- + Perfect for small spaces and high-traffic areas
- + Perfect for low-to-medium volume business use
- + Tinted tempered glass enclosure for a modern, luxurious feel
- + Bluetooth stereo speakers for Myndstream-compatible audio relaxation
- + Soothing 7-color LED star lights on the ceiling to enhance the therapeutic ambiance

\$4,995

Includes SALT FX™ aero Halogenerator (a \$2,195 value)

OPTION 2

AERO Infrared Sauna Booth™

Why Choose This Option: Perfect for facilities looking to offer deep therapeutic benefits, including improved circulation, pain relief, and detoxification. Provides a premium wellness experience in a space-efficient design.

DELIVER DEEP HEALING AND RELAXATION IN 15-30 MINUTES

- + Full spectrum Infrared and carbon heaters with tourmaline stones
- + Compact 36x36" footprint
- + Commercial-grade performance
- + Suitable for various wellness goals including detoxification & pain relief
- + Tinted tempered glass enclosure (8mm thick) for a luxurious, modern aesthetic
- + Bluetooth stereo speakers for Myndstream-compatible audio relaxation
- + Soothing 7-color LED star lights on the ceiling to enhance the therapeutic ambiance

\$3,495

AERO SALT BOOTH™ & INFRARED SAUNA BOOTH™ SPECIFICATIONS:

Width: 36"
Depth: 36"
Height: 76"
Weight: 220 pounds
Power: 1350 Watts (plugs into a standard 110V outlet)

AERO SALT BOOTH™ INCLUDES:

SALT FX™ aero Halogenerator (a \$2,195 value)

INFRARED SAUNA BOOTH™ INCLUDES:

Heaters: Full-spectrum Infrared & carbon heaters with tourmaline stones

Glass: Tempered, 8mm thick

AERO Booth™ Bundle

OPTION
3

AERO SALT Booth™ & AERO Infrared Sauna Booth™ Bundle

Why Choose This Option: Ideal for facilities looking to provide comprehensive wellness solutions. Offers the flexibility to cater to diverse client needs and preferences while maximizing revenue potential per square foot.

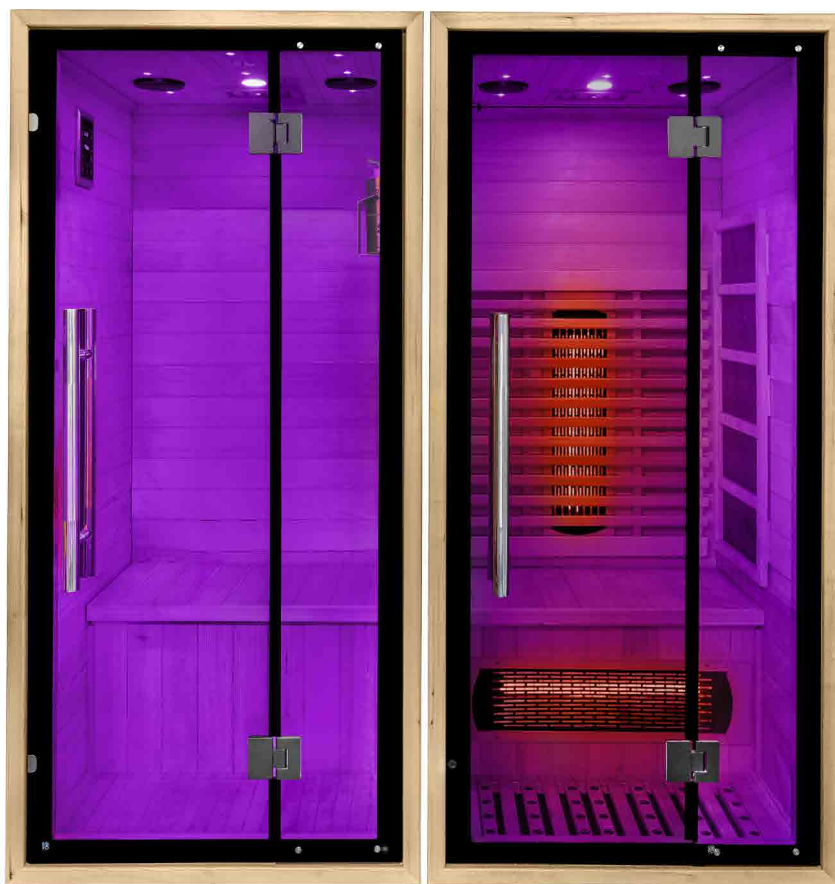

THE ULTIMATE WELLNESS 'STACK' FOR MAXIMUM CLIENT BENEFITS AND BUSINESS PROFITABILITY

- + Both SALT and Infrared Sauna booths
- + Ability to offer standalone or stacked therapy sessions
- + Compact footprint (two 36" x 36" units)
- + Versatile wellness solutions covering respiratory health, detoxification, relaxation, and more

By offering both the **AERO SALT Booth™** and the **AERO Infrared Sauna Booth™**, you can provide your clients with the synergistic benefits of these two complementary modalities. Clients can start with a 10-minute salt therapy session to cleanse and refresh the respiratory system, followed by a 15-minute infrared sauna session to promote relaxation, detoxification, and pain relief.

\$8,490

Includes SALT FX™ aero
Halogenerator (a \$2,195 value)

Invest in the AERO Booth Combination today and position your business at the forefront of the wellness industry. Offer your clients a truly transformative experience while unlocking a new level of profitability for your business.

RED LIGHT Therapy

Red Light System Built Entirely on Science and Designed for Patient Outcomes

The Industry's First Science-Driven Red Light Therapy System

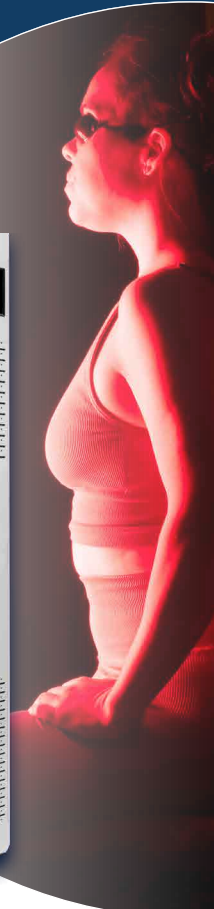

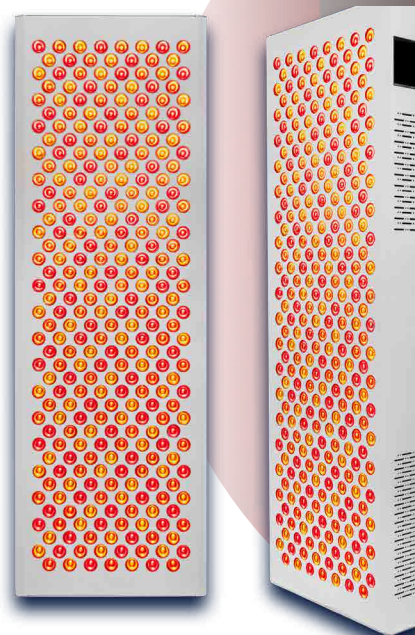

We didn't settle for the status quo. We built a red light system from the ground up to deliver real, measurable outcomes using **peer-reviewed research** and **patent-pending programmable technology**.

Our system combines unmatched power, precision, and a revolutionary approach to wavelengths, creating a product that doesn't just promise results—it proves them.

What Makes Us Different?

THE THREE PILLARS OF OUR RED LIGHT INNOVATION

- + More Power, More Penetration:** Competitors run on insufficient power, failing to reach deep tissues. Our system offers twice the irradiance and up to 600 LEDs per panel, ensuring maximum penetration and measurable outcomes in just 6 minutes.
- + Science-Backed Wavelengths:** While others mix wavelengths without purpose, we use six carefully selected wavelengths, each proven by white papers to target specific outcomes—from anti-aging to pain relief and mitochondrial activation. (See patient outcome chart below)
- + Precision Programming:** With patent-pending Technology, each wavelength operates independently, allowing for customizable protocols. Tailor sessions to specific patient goals like boosting metabolism, cellular rejuvenation, or reducing inflammation. (See patient outcome chart below)
