#### ASSESSOR COMMENT (NOT VISIBLE TO THE REPAIRER)

Australian Accident Management Commercial Pty Ltd Level 1 Building 4, 205-215 South Pine Rd QLD 4500

This Report and acknowledgment is the expert witness report of Bryan Walker, I have read the Magistrates Court of Victoria Expert Witness Code of Conduct (Which is attached – attachment 1) and I agree to be bound by it. My qualifications and experience are attached to this acknowledgement.

I have been advised that motor vehicle registered number 1QX6HM was damaged in a motor vehicle collision on or about 30/08/2022 and asked to inspect and prepare an assessment report according to my findings. I can advise that I inspected the vehicle on 12/12/2022 and subsequently prepared the assessment report and associated repair costs based on my findings and my industry experience.

Inspection was carried out at Sheen Panel Service Croydon 30 Coolstore Road CROYDON VIC 3136.

#### VEHICLE DESCRIPTION AND VALUE

The vehicle is the 02/2020 Ford Ranger XLS Sport 3.2 (4X4) PX MK111 MY20.25 dual cab utility.  
The Vehicle is in average pre-accident condition.  
I estimate the fair market value to be \$62,000.00  
The fair market value does not include stamp duty and transfer fees.  
Salvage value at time of loss \$12,000.00

#### DAMAGES SUSTAINED

The Vehicle has been repaired prior to my inspection. Damages were to the rear body area.

#### REPAIR WORK COMPLETED

I have reviewed the Estimate Number 13081 that was submitted by Sheen Panel Service Croydon and note the following:

#### REMOVE AND REFIT LABOUR

I have reviewed the attached quote and have identified that certain Remove and Refit labour components of this quote was not required as stated in the repair estimate. I have also found that some costs are excessive, and I have made the necessary adjustments. I have adjusted this segment to reflect fair and reasonable Remove and Refit labour operations that are based on photographic evidence supplied, and consistent with my recent industry experience for similar labour operations.

#### REPAIR LABOUR

I have carried out a thorough examination of the alleged repaired areas and have found signs of unrealistic repair work carried out to some of these areas. After viewing the vehicle and the photographic evidence supplied, I have made the necessary adjustments as required. I have made amendments to this segment to reflect costs that I believe are fair and reasonable based on photographic evidence supplied and my recent industry experience for similar labour operations.

#### PAINT LABOUR

It is my expert opinion that Paint costs are excessive, and I have made several adjustments to this segment. I have made amendments to this segment that reflect costs I believe are fair and reasonable and based on photographic evidence supplied, along with my recent industry experience for similar paint labour operations.

#### PARTS AND MISCELLANEOUS ITEMS

All Parts appear to have been replaced as stated on the attached Repair Estimate. I have contacted the repairer and made a request for copies of the parts purchase invoices that were used in this repair process. Parts invoices have been supplied. Some adjustments were made to the miscellaneous segment to reflect costs that are consistent with my recent industry experience for similar operations.

#### QUANTUM

I have contacted the repairer and asked if there are any outstanding supplementary estimates pending on this claim. Repairer has advised: No. My assessment of fair and reasonable repair costs based on my Re-inspection report is \$19,763.25 inclusive of GST. Adjustments have not been discussed with the repairer.

#### REPAIR TIME REQUIRED

I estimate the repair time for this type of repair process would be 16 working days. This is based on my recent industry experience and has not been discussed with the Repairer.

#### GENERAL COMMENTS

I reserve the right to request a second inspection opportunity if additional documentation and photos become available after my initial inspection. I also reserve the right to amend my report once additional information becomes available.

If you have any further queries, please do not hesitate to contact our office.
