

KYRO Technologies Inc. (KYRO) - Subprocessors

Last Updated: October 14, 2026

To support the delivery of our Services, KYRO may engage and utilize data processors with access to certain Customer Personal Data (each, a "Subprocessor"). This page provides essential information about the identity, location, and role of each Subprocessor. Terms used on this page but not defined have the meaning set forth in the Terms of Service or superseding written agreement between Customer and KYRO (the "Agreement").

Third Parties

KYRO currently engages third-party Subprocessors to provide infrastructure and other services, as well as to assist in customer support and email notifications. Prior to engaging any third-party Subprocessor, KYRO conducts diligence to evaluate their privacy, security, and confidentiality practices, and executes an agreement implementing its applicable obligations.

Subprocessor List

KYRO may utilize the following Subprocessors to host Customer Data, provide infrastructure aiding in the delivery of our Services, or perform other Service functions:

OpenAI, LLC

Subject Matter, Nature, and Duration of Processing: OpenAI, LLC serves as a service provider for AI-enabled functionality.

Location (Country): United States of America

Adequacy Mechanism Supporting Transfer: Standard Contractual Clauses

KYRO Wholly Owned Subsidiaries

Location (Country): KYRO-SaaS Technologies Private Limited (India)

Adequacy Mechanism Supporting Transfer: Standard Contractual Clauses

Geographies: KYRO may process personal data in India and the United States.

Updates

As our business grows and evolves, the Subprocessors we engage may change. We will strive to provide the owner of Customer's account with notice of any new Subprocessors to the extent required under the Agreement, alongside posting such updates here. Please check back frequently for updates.

Subprocessor	Type/Purpose
