

Your Path to Ownership

Powering Your Production. Empowering Your Ownership.

At Flogistix & McClung, now united under Flowco's Natural Gas Technologies division, we provide flexible, ownership-focused solutions through strategic partnerships with major financial institutions.

Ownership Advantages

100% Financing at competitive interest rates

Asset Ownership with enhanced design options to fit your exact application

Minimize monthly payments with lease terms up to 84 months

Tax Benefits: Structured leases may qualify you for bonus depreciation, offering 20%+ in cash savings

How To Get Started

1. Connect & Customize

Reach out to your sales rep or visit flogistix.com/contact — our engineers will design a compressor package tailored to your needs.

2. Finance & Own

We'll help structure lease terms that work for you — so you gain full ownership and long-term value from your equipment.

3. Maintain

Keep your system running strong with monthly service contracts from Flogistix & McClung.

Flogistix FX25

High-volume, gas-driven VRU — no need to wait on electrical infrastructure.

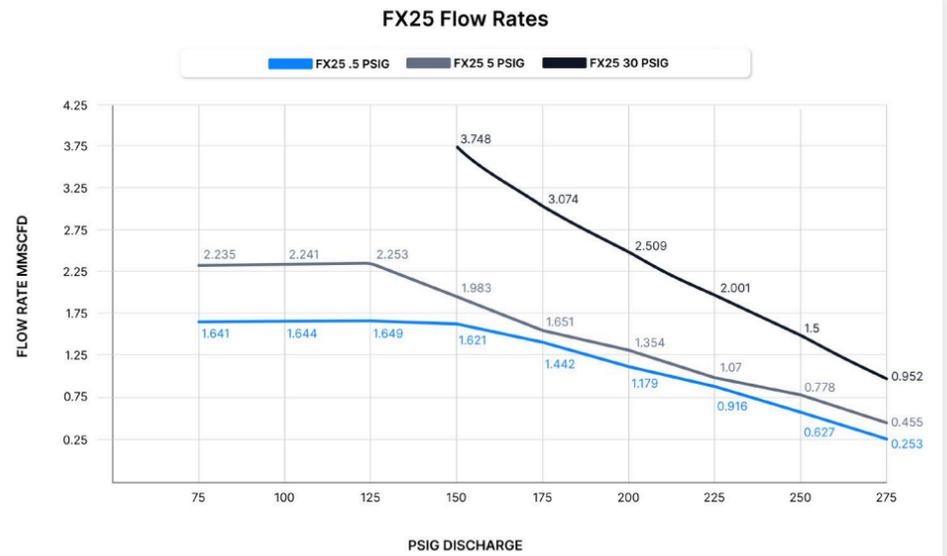

Proven Flogistix reliability — now with greater capacity for demanding operations

KTA19 engine provides 420 hp to help overcome high line pressures.

Frick rotary screw compressor — equipped with high-temp ceramic bearings for volatile gas streams.

Maximum flexibility — 100% turndown and automated variable Vi ratio for optimized performance.

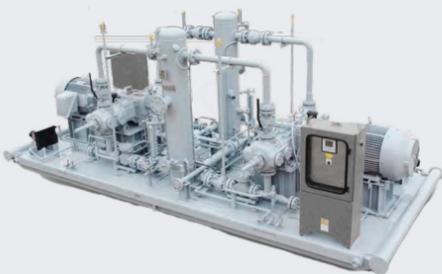

Revenue stream from liquids rich vapors provide for outstanding economics.
