## From the Secretary:

18th January 2022

**Dear Member**

### **Run Safety**

Top was opened yesterday to much fanfare.

What is less well known is that the arbiters worked tirelessly filling in parts of the outer bankina in line with the recommendations of the independent Run inspector. It was noticed that someone, possibly a Member, had placed a large, fixed banner close to the Thoma falling area.

This banner was erected without reference to the Secretary, and was potentially dangerous.

**This must not happen again.**

---

### **The Curzon**

On happier notes: the Curzon over the weekend was a thrilling event and it was a privilege to have the best seat in the house to watch the battle of the elite riders. Congratulations are due to Magnus Eger for his third victory in this race, Pascal Oswald for the fastest time of the season to date, Alex Kriemler, our new Colours winner, and to Enrico Nani, who at least had the consolation prize of the NearasDamnit Cup, coming 9th on the first day by a mere 1/100th second.

---

### **Club equipment for sale**

There are some Club toboggans, both Trad and FT, which are being retired, but Members may wish to purchase as *Objets d'Art*. In addition, there are a few rideable toboggans of each type available for purchase. Moreover, if interested there are old SL helmets for sale.

Please contact [Jamie Summers](#) if interested.

---

## Clarification on Covid Rules

It is possible that the President's Newsletter regarding the updated entry and vaccination rules could be misunderstood. There is **no requirement** (and hasn't been for some time) to quarantine on arrival in Switzerland. Rules change so often and so quickly, it is important that anyone planning to visit our favourite valley undertakes their own research to ensure that they comply with current regulations.

Best wishes

**Gary Lowe**  
Secretary, SMTC
