

Shippit Boilerplate

Shippit

Shippit is the industry-defining commerce delivery platform that powers +100M deliveries annually across Australia, New Zealand and South East Asia. Since its launch in 2014, Shippit has fulfilled nearly \$30bn worth of ecommerce orders. Shippit's award-winning software and services are trusted by thousands of companies - like Kmart, Myer, Big W, Baby Bunting and R.M.Williams - in stores, warehouses and vehicles to solve complex logistics challenges, streamline operations, optimise the post-purchase experience and surpass customer expectations. NowGo by Shippit - its AI-powered last-mile orchestration solution - enables businesses with specialised, time-critical delivery needs to boost reliability, efficiency and scalability. The result is a higher net promoter score (NPS), increased customer lifetime value, and reduced operating costs. For more information about how you can turn delivery into a driver of loyalty, visit www.shippit.com

NowGo by Shippit

NowGo by Shippit is a powerful, AI-first last-mile delivery orchestration solution built for businesses with complex, time-sensitive delivery operations. Developed in Australia and trusted by Reece, Mitre 10 and Healius, NowGo helps companies overcome rising costs, driver shortages and growing regulatory pressure. Purpose-built for fleet operators in trade, healthcare, food and bulky goods, NowGo improves fleet efficiency and utilisation while cutting fuel, downtime and distance travelled. With advanced route optimisation, real-time re-planning, a customisable driver app, and Uber-like tracking, NowGo powers over 30 million deliveries annually—and gives dispatchers the tools to operate smarter, faster, and more profitably. For more information on how you can operate smarter, faster and more profitably, visit nowgo.io
