## SMART MAINTENANCE SAFER BUILDINGS FEWER HEADACHES

start planning with confidence

Your HVAC/R and plumbing systems are the heart of your operations—and ignoring them until something breaks can cost you. GRP | WEGMAN's Preventative Maintenance Program gives you the confidence of knowing your systems are being monitored, maintained, and optimized by industry pros.

Our team will work with you to create a custom service schedule that fits your needs, budget, and building systems. It's about preventing problems before they happen — and doing it in a way that saves you time, money, and stress.

## WHY PREVENTATIVE MAINTENANCE?

- Avoid Expensive Repairs
- Increase System Efficiency
- Enhance Safety & Reliability
- Lower Operating Costs
- Extend Equipment Life

Ready for less  
stress and more  
reliability?

## WHO IS GRP|WEGMAN?

For over seven decades, GRP|WEGMAN, an Innovative Facility & Energy Solutions company, has established an impeccable reputation in the Midwest, delivering exceptional quality and unparalleled service. Our extensive clientele, many of whom engage us for multi-year, multiple phased projects, is a testament to our consistency and commitment to excellence. No matter what process or facility you are looking to upgrade, our team of solution providers can help you engineer an outcome that makes sense for your organization.

Our team is not just large; it's versatile and highly skilled. With several hundred dedicated employees, we bring a holistic approach to your project from Innovative procurement methods to a range of flexible funding mechanisms. From HVAC to carpentry, our ability to self-perform ensures that each project upholds the GRP|WEGMAN standard of excellence.

We take immense pride in our proven track record, highlighted by our portfolio of successfully completed projects, and by our achievements in safety and regulatory compliance. When you partner with GRP|WEGMAN, you're hiring a contractor and aligning with a tried and trusted ally committed to your long-term success. Our mission is to create projects that are built to last and are also optimized for energy efficiency. We aren't just building; we are revolutionizing infrastructure and powering efficiencies.

## WHY GRP|WEGMAN?

### 1 OPERATIONAL AGILITY

We seamlessly combine rapid, expert-empowered decision-making and close-knit executive involvement to ensure your project and voice are always a priority.

### 2 TRANSPARENCY & HONESTY

Boasting 70 years of proven reliability, we deliver client-first, cost-effective solutions, firmly standing behind a commitment to no-surprise, on-time, and within-budget project completion.

### 3 RELIABILITY & TRUST

We guarantee seamless project delivery from start to finish, upheld by a flawless record and a steadfast, vendor-neutral approach.

### 4 CLIENT-CENTRIC APPROACH

We ensure tailored solutions and timely project execution with a steadfast commitment to putting client needs first, from consultation to completion and beyond! **Experience the GRP|WEGMAN Way!**
