

Modern Slavery Statement – 2026

1 Introduction from Geoff Keal, Chief Executive Officer

- P1 We recognise that Modern Slavery is a crime and a violation of fundamental human rights. We are aware that Modern Slavery takes various forms, including slavery, servitude, forced and compulsory labour and human trafficking, all of which have in common the deprivation of a person's liberty by another in order to exploit them for personal or commercial gain.
- P2 Modern Slavery is the term used within the UK and is defined within the Modern Slavery Act 2015.
- P3 It continues to be a priority for TerraQuest to ensure that we trade ethically, source responsibly and work to prevent modern slavery and human trafficking throughout our organisation and in our supply chain. This statement highlights the key activities we have undertaken during this financial year to combat modern slavery in our organisation and supply chain.

2 Organisation's structure

- P1 This statement relates to the TerraQuest Group of companies (TerraQuest Solutions Limited, and its subsidiary PortalPlanQuest Limited).
- P2 We are a provider of Technology and Data services in the land, planning and data technology sectors. We have over 200 employees and operate in Birmingham (head office), Bristol and Belfast.

3 Our business

- P1 Our business is organised into three business units: Technology – providing proprietary solutions offering a complete land and property ecosystem, from infrastructure and planning through to the built environment; Data and Professional Services – we create, manage, migrate, manipulate and cleanse data to transform services; Planning Portal – providing technology and services that has shaped the planning process for England and Wales, offering a seamless submission process to the public across both local and central government.

4 Our supply chains

- P1 Our supply chains are fairly simple as most of our services are provided through our people, supported by office infrastructure and supported by some outsourced third-party technology services and are to a large extent supplied within the United Kingdom.

5 Our policies on slavery and human trafficking

- P1 We have appropriate policies in place that underpin our commitment to ensure that there is no modern slavery or human trafficking in our supply chains or in any part of our business. We continuously review and update all our policies.

P2 This Statement on Modern Slavery reflects our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing effective systems and controls to ensure slavery and human trafficking is not taking place anywhere in our supply chains. We also have the following documents/policies in place relevant to modern slavery, which we continuously review and update:

- Company values
- Our compliance with ISO standards and relevant legislation
- Code of ethics and behaviours
- Procurement policy

6 Due diligence processes for slavery and human trafficking

P1 We understand that for our company the following areas give rise to the highest modern slavery risks:

- Outsourced services such as cleaning
- Work outsourced to countries outside the UK such as IT services
- Our own employees – ensuring they are legally in the UK with a Right to Work

P2 As part of our initiatives to identify and mitigate risk we:

- Perform a background check on all employees to confirm everybody has a Right to Work in the UK
- Confirm rates of pay paid to outsourced cleaners to ensure they are at or above National Living Wage for the UK
- Ensure that all contracts with suppliers, both domestic and/or overseas, contain terms and conditions regarding modern slavery and that they commit to the same due diligence.

P3 We also have in place systems to:

- Identify and assess potential risk areas in our supply chains.
- Protect whistle blowers.

7 Supplier adherence to our values and ethics

P1 We have zero tolerance to slavery and human trafficking. To ensure all those in our supply chain and contractors comply with our values we have in place a supply chain compliance programme.

P2 We have a dedicated compliance team, which consists of representatives or involvement from the following departments:

- ICT and Solutions
- Technical Services
- Audit and compliance
- Human resources

8 Training

P1 To ensure a high level of understanding of the risks of modern slavery and human trafficking in our business, we provide regular training to all of our employees with management responsibility.

9 Responsibilities

9.1 Compliance Forum

- PI The forum has the responsibility for drafting of this statement and updates based upon business requirements and changes to legislation. Submission to the Executive Team for approval every six months.

9.2 Executive Team

- PI The Executive Team commit to undertake a six-monthly review of this statement.

9.3 Chief Executive Officer

- PI The CEO has overall responsibility for the approval of this statement.

Geoffrey Keal
Chief Executive Officer
