Efforts Made in the field of Environment Education:

The school has consistently demonstrated its commitment to environmental sustainability through a series of well-planned Eco Club activities conducted during the academic year. These initiatives were designed to instill environmental awareness and responsibility among students while encouraging active participation in eco-friendly practices.

As part of the activities, a **rally was organized around the school परिसर**, where students enthusiastically carried placards and raised slogans promoting environmental conservation. This helped in spreading awareness within the local community about the importance of protecting nature.

In continuation of these efforts, **saplings were planted near the nearby lake as well as within the school campus**. Students actively participated in the plantation drive, understanding the significance of trees in maintaining ecological balance and improving air quality.

A special program was conducted on the occasion of **Van Mahotsav**, focusing on the importance of afforestation and environmental protection. Through speeches, skits, and presentations, students were sensitized to their role in preserving the environment.

Additionally, **environment-friendly activities were carried out within classrooms**, where students engaged in creative tasks such as poster making, slogan writing, and discussions on sustainable practices. These activities reinforced the concept of eco-conscious living at an individual level.

Furthermore, a **special assembly was conducted** to emphasize the importance of maintaining an eco-friendly environment. Students delivered speeches and shared messages highlighting the need for collective responsibility in conserving natural resources.

Overall, these Eco Club initiatives have successfully nurtured environmental awareness among students and encouraged them to adopt sustainable practices in their daily lives. The school

remains committed to continuing such activities as part of its ongoing efforts towards building a greener and healthier future.

PTA Activities

PTA Meetings (Regular & Special Meetings)

- Conducted periodic PTA meetings for all grades to discuss academic progress, discipline, and student well-being.
- Parents were oriented on assessment patterns, including CBSE guidelines and reforms.
- Constructive feedback from parents was recorded and implemented where feasible.

Parent Orientation Programmes

- Organized orientation sessions at the beginning of the academic year for new and existing parents.
- Sessions focused on curriculum structure, school policies, safety protocols, and holistic development.

Academic Support & Awareness

- Workshops conducted for parents on topics such as:
 - Exam preparedness and stress management
 - Supporting children in digital learning
 - Understanding competency-based education (as per CBSE norms)

Health & Wellness Initiatives

- PTA collaborated in organizing:
 - Health check-up camps
 - Mental health awareness sessions
 - Nutrition and hygiene awareness programmes

Co-curricular & Event Participation

- Parents actively participated in school events such as Annual Day, Sports Day, exhibitions, and cultural programs.
- PTA members contributed as judges, volunteers, and coordinators.

INNOVATION

The school has taken significant steps to strengthen skill-based learning in alignment with CBSE guidelines, with a focused emphasis on robotics and innovation-driven education. These initiatives aim to equip students with 21st-century skills such as critical thinking, problem-solving, creativity, and technological proficiency.

As part of this effort, robotics classes are being conducted regularly for students across relevant grades. The curriculum is designed to provide hands-on learning experiences, enabling students to understand core concepts of coding, automation, and engineering through practical application. This approach ensures that learning goes beyond theoretical knowledge and fosters experiential understanding.

To further enhance student engagement and innovation, the school actively encourages participation in robotics competitions, exhibitions, and paper presentations. Through these platforms, students are given opportunities to showcase their ideas, develop innovative models, and present their concepts confidently. Such exposure nurtures their analytical abilities and boosts their confidence in applying learned skills to real-world challenges.

The robotics program is fully aligned with a skill-oriented learning framework, ensuring that students are not only consumers of knowledge but also creators and innovators. The school is committed to exploring and nurturing each child's potential by providing them with opportunities to experiment, design, and innovate.

In addition to robotics, the school has also integrated multiple allied skill-based learning programs within the campus. These initiatives collectively contribute to the holistic development of students by promoting creativity, collaboration, and independent thinking.

Through these sustained efforts, the school ensures that students are well-prepared for future academic and professional pursuits, with a strong foundation in innovation and skill-based education. The institution remains dedicated to continuously enhancing such programs to support student growth, exploration, and excellence.
