April at P4Q:

A Month of Learning, Celebration, and Fun!

April has been a fantastic month filled with meaningful learning, growth, and joyful experiences! As spring arrived, our students embraced opportunities to explore nature, celebrate special events, and participate in hands-on activities that support their development. We began the month with engaging spring-themed activities that brought excitement and smiles to the classroom. On April 22nd, we recognized Earth Day by learning simple and meaningful ways to care for our planet. As the season changed, students also observed and discussed signs of spring in their environment. It has been wonderful to watch our students grow and thrive, just like the world blooming around them.

Important Dates & Upcoming Events

- 🌸 May 7th Parent Teacher Conferences
- 🌸 May 25th Memorial Day (School closed)
- 🌸 May 27th Eid al-Adha (School closed)

P4 Community

P4Q@179

Spring is blooming with beautiful flowers all around us, and students are excited to enjoy the warmer weather and colorful days ahead. Students got to enjoy their Spring Break, and we hope everyone had a fun and relaxing time with family and friends. Since returning, students have been working hard during state testing, and we are proud of their effort and determination. We have also been learning about Earth Day and ways we can help take care of our planet! We celebrated World Autism Day by honoring neurodiversity, promoting understanding, and showing support for all individuals on the autism spectrum. We recently had Picture Day, and students showed off their biggest smiles while also taking a wonderful class photo together! In addition, our 5th graders have begun their graduation rehearsals, and excitement is building as they prepare for this special milestone!

P4Q@138

April has been a joyful and busy month for P4Q@138! With the warmer weather finally arriving, our students took their learning outdoors for a fun and engaging spring scavenger hunt. They explored their surroundings while identifying signs of the season, practicing observation skills, and building vocabulary along the way. Back in the classroom, creativity has been blooming as well. Some of our kindergarten teachers have begun participating in the CEI Meridian program, where art and music are thoughtfully woven into literacy instruction. The students have especially loved expressing their understanding of stories using instruments and art supplies. We also celebrated Climate Action Day in a hands-on and meaningful way. Our pandas had the opportunity to plant seeds while learning about what plants need to grow, connecting science concepts to real world experiences. It was wonderful to see their excitement as they dug into the soil and discussed sunlight, water, and care. Between outdoor adventures, creative expression, and science exploration, April has been full of growth, curiosity, and fun!

P4Q@161

April was a balanced month of rest and rigorous work for our P4Q Inclusion students. After enjoying a much-deserved Spring Recess with their families, students immediately returned to school ready for State Testing. We are incredibly proud of the confidence and diligence shown by our students as they completed the two-day ELA state test, demonstrating how much they have learned throughout the year. Beyond testing, we celebrated Earth Day by planting seeds in personalized pots. Two of our students, who are Student Council members, spoke about the vital importance of preserving the planet's health and beauty. As the school year draws to a close, we remain committed to putting forth our best effort every day.

P4Q@270

April was another busy and fun month for P4Q Pandas at 270! Students had the opportunity to engage in several hands-on activities, including planting seeds in honor of Earth Day as well as conducting science experiments. Students participated in the state ELA and Math tests, demonstrating all they have worked so hard to learn this year! Students got to enjoy some of the warmer weather during a spring fun event, rotating through different outdoor activities. Our Pandas finished off the month with a site wide Publishing Party, celebrating the publication of a book featuring pieces of writing done by each student in the site. Students researched and wrote about all different animals. During the Publishing Party, students had the chance to read their piece, share their illustrations, and answer questions from their peers. We look forward to the excitement May is sure to bring!

P4Q@70

70 Continued...

April was a busy and exciting month at our school! We proudly celebrated Earth Day by learning ways to care for our planet and participating in hands-on, eco-friendly activities. Our Parent Engagement Career Day was a wonderful success. Families joined us to share their careers and inspire our students to think about their future goals. As the weather warmed up, we enjoyed a variety of fun spring activities that brought energy and smiles to our classrooms. We captured special memories during picture day, with lots of bright smiles. Throughout it all, our students stayed focused and continued to grow, learn, and make great progress every day.

P4Q@SKILLMAN

What a month April was for our Skillman Pandas! Time has flown by and we can't believe we are already heading into May.

We have both our 5th graders and 8th graders preparing for their respective graduations. Our 8th graders are now practicing twice a week so that they are able to perform a special dance at the event. Our Middle School classes just participated in the annual spelling bee! Our champion was Marwen, and our runner-up was Jariff. At the elementary level, our champion was Jade! Those three students will represent Skillman at the Q177 "Ultimate Hive" District 75 annual spelling bee!

Our weekly trips to the Food Bazaar supermarket continue to help our students learn daily living skills like shopping and money management.

As the weather warms, we are getting our students outside for physical education and recess! Please remember to monitor the weather so students can get in some outdoor activities.

We are excited for a fun month of May!

P4Q@213

April has been an exciting month at P4Q, filled with meaningful learning and celebration. Students and staff wore red and blue to recognize World Autism Acceptance Day, promoting inclusion, understanding, and appreciation for all.

Our school community also celebrated Earth Day through hands-on activities that encouraged students to care for our planet, seamlessly connected to our curriculum.

Our 5th grade students launched their Panda Provisions store, taking on leadership roles by serving food, managing currency, and making deliveries. This real-world experience supported independence, responsibility, and teamwork. As we look ahead, our 5th graders are preparing for their moving-up ceremony, marking an important milestone.
