MAY 2026

May at P4Q:

May was another fun-filled and busy month for our P4Q Pandas! We acknowledged many important people and celebrations throughout the month, from celebrating the special women in our lives for Mother's Day to participating in meaningful Memorial Day activities honoring those who have served our country. Students also enjoyed hands-on planting activities, exploring seeds, soil, and plant care while learning about growth and nature.

Important Dates & UPCOMING EVENTS

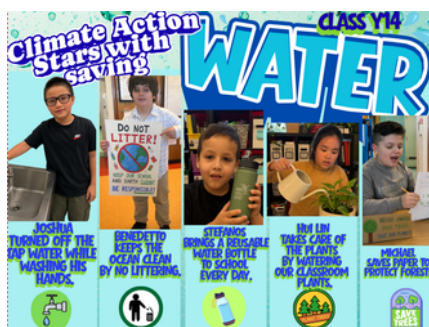

June 3rd - 🎪 P4Q Carnival

June 4th - Anniversary Day - No school for students

June 5th - Clerical Day - No school for students

June 19th - Juneteenth - Schools closed

June 26 - Last day of school.

P4Q@179

May has been a month full of meaningful learning and celebrations. We enjoyed celebrating Mother Figure Day and recognizing the special people in our lives who care for and support us every day. Students also learned about the importance of Memorial Day and took time to honor and remember those who served our country. In addition, we recognized Eid al-Adha and learned about its meaning and traditions celebrated by many families around the world. During Climate Action Day, students learned and explored about water conservation and discussed how small actions can help protect our environment. Students also participated in a dental program where they learned how to properly clean their teeth and had the opportunity to receive a dental checkup.

P4Q@138

May was full of creativity, learning, and fun for our 138 students! Classes X60 and X65 collaborated on an exciting music project for the CEI Meridian Program where students explored different instruments and connected music to literacy learning all about flowers. Students enjoyed expressing themselves through rhythm, sound, and storytelling. Our site also had an amazing tie-dye day as students designed their own colorful shirts in preparation for Carnival! Everyone loved choosing their favorite colors. We were also so excited to invite moms and special loved ones to our Mother's Day Tea, where students shared special moments & treats. This month, students in grades 3-5 worked incredibly hard during state testing, and we made sure to support their mental health and well-being along the way. For Mental Health Awareness Month, we welcomed a very special visitor, Cheerio the bearded dragon! Cheerio helped students relax, de-stress, and smile after testing through calming sensory experiences and positive interactions. It was a wonderful way to remind students to take care of their minds and celebrate all of their hard work this month! School's not over just yet. Let the learning and fun continue!

P4Q@161

It has been a truly rewarding May for our 161 inclusion students! Our month was highlighted by a special visit from Paralympian Blake Leeper, who inspired us with his story and signed copies of his new children's book. We also enjoyed a fantastic Career Day, where community members and families shared their professional journeys and provided engaging hands-on experiences, such as carpentry, right in our classrooms. To prepare for our upcoming excursion to Deno's Wonder Wheel in Coney Island, we even designed our own tie-dye t-shirts! As the school year draws to a close, we look forward to balancing our continued hard work with the many celebrations ahead.

P4Q@270

May was a month of excitement for our P4Q@270 Pandas! We celebrated the special women in our lives for Mother's Day, and learned about honoring our fallen soldiers for Memorial Day. We also observed Climate Action Day and created informational posters about water conservation. Students had the chance for lots of hands on activities this month including making quesadillas and breaking open a piñata for Cinco De Mayo, dissecting owl pellets and exploring their characteristics in Science class, using models to sequence the butterfly life cycle, observing our very own real life butterflies complete their life cycle before we released them into the wild, and tie dying shirts to wear for next month's annual school carnival! Students visited the Museum of Science and the Intrepid, utilizing some of our community resources. We also enjoyed our regular days of learning, growing, and having fun together. It is hard to believe next month is already June, but we look forward to finishing the school year strong together!

P4Q@70

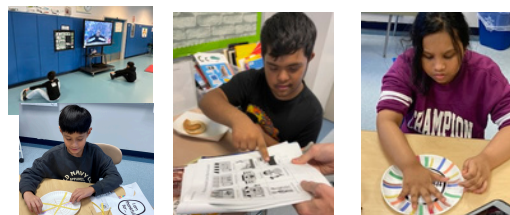

70 Continued...

During the month of May our school community enjoyed many exciting activities. Students had a wonderful time at the Spring Fair, where they participated in games and activities. 81IQ invited us to their show, Mary Poppins. Students were delighted to watch the performance. Mother's Day was celebrated by recognizing the mothers, caregivers, and special women who support our students each day.

Students also participated in a special dance residency, where they explored movement, rhythm, and creative expression while learning new dance skills. The residency encouraged teamwork, confidence, and fun, and students looked forward to each session. May was filled with joyful experiences and memorable moments for our school community.

P4Q@SKILLMAN

April Showers bring May flowers, and boy were our students bringing this month! Many of our students are making incredible strides both in and out of the classroom.

To follow-up our recognition of World Autism Awareness Day in April, we spent time learning about other important holidays some of us choose to celebrate. Mother's day fell on May 10th this month and we discussed the importance of recognizing our mothers and other mother figures in our lives. We also discussed the Memorial Day and Eid al-Adha holidays that we were not in school for on May 25th and 27th. Many of our yearly field trips, such as Food Bazar, are starting to wind down as we head into our final month of the regular school year. We have made such progress engaging in all of these activities.

In the classroom we are preparing for our Carnival at 179 during the first week of June, all while continuing our rigorous learning in math, reading and social skills. Let's go June!

P4Q@213

This month was filled with meaningful learning experiences and celebrations across our classrooms. Students created heartfelt Mother's Day projects to celebrate the important mothers and caregivers in their lives. As Memorial Day approached, students explored the holiday's meaning through discussions and art activities. They created poppy flower crafts to honor the brave men and women who served our country, which were displayed throughout the school. Several classes also visited Deno's Wonder Wheel Amusement Park, where students enjoyed rides and a fun day of community-based learning. To close out the month, students participated in Action Climate Day activities focused on water conservation and environmental awareness. Through interactive lessons and projects, students learned ways to help protect and preserve water resources.
