

DESCRIPTION & APPLICATIONS

The HLSFL series is a multi-purpose light classified for use in Hazardous (C1D2) environments that require the following certifications:

- Class I, Division II: Groups A, B, C, D
- Class II, Division I: Groups E, F, G
- Class II, Division II: Groups E, F, G
- Class III

The fixture is designed for applications requiring metallic fixtures. Excellent for marine wet and damp locations. Typical applications include solvent and cleaning areas, petrochemical facilities, marine facilities, waste treatment plants, and food processing applications. Housing is copper free aluminum with a tempered glass lens. The fixture also offers modern conveniences like selectable CCT and Power setting so they can be adjusted to your specific requirements.

ELECTRICAL

Long-life LED system coupled with electronic driver delivers optimal performance. LED's available in 80+ CRI and 3000K to 5000K CCT. Projected L70 rated life is >100,000 hours. Standard electronic drivers are 120-347VAC, 277-480VAC drivers optional.

LISTING/CERTIFICATIONS

NEMA 4X IP66
UL1598 / UL844
CSA C22.2 No.137 / No.250.0
UL1598A Marine and Wet Locations

PERFORMANCE

The HLSFL luminaire offers up to 140 lumens per watt, THD <10%, PF>99. Dimming and 3-hour emergency battery are optional. LED modules and drivers are offered with a standard 5 year warranty based on performance under normal conditions. Consult warranty for details.

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

SPECIFICATIONS

Construction: Marine grade, copper free cast aluminum housing

Finish: Gray Epoxy coat

Lens: Tempered glass

Light Source: 20 - 200-watts (Selectable)

Available Light Spreads: 40/60/90/120-degree

CRI: 80

CCT: 3000K, 4000K & 5000K (Selectable)

L70: 100,000 hour rated life

Power Source: 120-347VAC, 50/60Hz, 277-480VAC optional

Wiring: 3/4 inch NPT threaded

Mounting: Trunnion, Pendant, Pole, Hoop

Ambient Operating Temperature: -40°F to +140°F

Impact: High impact resistance

Maintenance: Replaceable LED board and drivers

Components: Integrated compartment for driver

Optional Configurations: Dimming, Photocell, Microwave Sensor, Emergency backup battery

DIMENSIONS

60W (Selectable)

100W (Selectable)

200W (Selectable)

OPTICAL PERFORMANCE

60W Selectable Fixture (120-347 VAC)				
Setting	Wattage	3000K Lumens	4000K Lumens	5000K Lumens
