RED RUBBER GREASE

Description

Excellent compatibility with rubber seals and components in brake Systems.
Recommended in the lubrication of O-rings when assembling pneumatic cylinders, and rubber boots on hydraulic braking systems.

Applications

Filling rubber boots on hydraulic braking systems which require the performance of a brake fluid compatible grease.

This product is also suitable for the lubrication of natural or SBR rubber components.

Features/Benefits

- Fully compatible with rubber
- Protects rubber components from swelling or hardening / brittle
- Extends rubber components life

PHYSICAL CHARACTERISTICS

TEST	TYPICAL RESULTS
Appearance	Red grease
Consistency	NLGI 3
Max. Operating Temperature	800C

Note: Do not mix with other lubricants
