LUBRICATION

MARINE LUBRICATING GREASE

Description

Heavy duty lubricating grease, specially formulated to offer superior resistance to water and enhanced resistance to corrosion.

Extremely adherent to metal surfaces it will repel water, protecting against shock loading.

Recommended for the severe conditions encountered in the marine and nautical environment.

Applications

It offers excellent protection to all parts on boats, requiring grease lubrication.

Features/Benefits

- Good water repellence
- Protects against corrosion and oxidation
- Wide operating temperature range

PHYSICAL CHARACTERISTICS

TEST	TYPICAL RESULTS
Appearance	Blue
Consistency	NLGI 2
Timken OK load (Kg)	25
Temperature range	-15 to 1350C
