

PRECISION LUBRICATION

DCT Fluid Synthetic Syntrans MAX

Description

ATF is an automatic transmission fluid for use where manufacturers calls for a Dexron III fluid. It is blended from synthetic base oils, which have been fortified with anti-wear anti- oxidant, anti-foam, anticorrosion and viscosity index improvers together with friction modifiers. This blend of components gives high levels of performance and long service life

Applications

- Automotive heavy-duty automatic transmissions
- Hydraulic systems
- Power shift transmissions
- Screw type air compressor
- Power steering
- Certain manual transmissions

Features/Benefits

- Synthetic base oil technology
- Extremely low temperature fluidity
- Good oxidation stability at high temperature
- Good wear protection

PROPERTIES AND SPECIFICATIONS

TEST	TYPICAL RESULTS
Density @ 20°C KG/L	0,857
Viscosity Cst @ 40°C	33
Viscosity index	189
Pour point °C(MAX)	-47
Flash point °C (MIN)	210
