

Everything you need.
Right where you need it.

CONTAINERIZED COMPRESSOR ROOMS

NEW

AIRMATIC CONTAINERIZED SOLUTIONS

Seize Control

Save time and money by eliminating expansions, permits, and costly construction overruns.

Built-in America

Designed and built with precision craftsmanship in the USA.

Climate Resistant

Engineered to perform from -40°F to 130°F.

Facility Footprint Optimization

Move your mechanical room outdoors and reclaim valuable production space.

Easy Installation

Single-point electrical, air, and condensate connections.

Quiet

1.5" sound-dampening insulation dramatically reduces exterior noise.

A Division Of

Key Capabilities + Options

Airmatic's containerized units have custom capabilities which offer a wide range of compressed air, nitrogen, oxygen, and vacuum options:

Compressed Air

- ✓ 5 HP to 600 HP
- ✓ 18 SCFM to 2500 SCFM
- ✓ 30 PSIG to 600 PSIG

Nitrogen Generation

- ✓ Up to 1,700 SCFM
- ✓ Up to 6000 PSIG
- ✓ Up to 99.999% purity

Oxygen Generation

- ✓ Up to 7,000 SCFH
- ✓ Up to 6000 PSIG
- ✓ Up to 95% purity

Vacuum

- ✓ 10 HP to 125 HP
- ✓ Up to 28 inHg
- ✓ Up to 3500 SCFM

ACS-10

ACS-40

ACS-20

ACS-SKID

Airmatic's units are equipped with top-tier air and gas treatment components, storage tanks, and piping systems:

Treatment:

- ✓ Refrigerated Dryers
- ✓ Desiccant Dryers
- ✓ Line Filters
- ✓ Mist Eliminators
- ✓ Oil Water Separators
- ✓ Condensate Drains

Storage:

- ✓ Wet and Dry Tanks
- ✓ Vertical or Horizontal Configuration
- ✓ Sizes up to 400 gallons (internal) and 2500 gallons (external)

Piping:

- ✓ Compressed Air - Blue Aluminum
- ✓ Nitrogen - Green Aluminum
- ✓ Vacuum - Grey Aluminum
- ✓ Inert Gas - Black Aluminum
- ✓ Stainless Steel or Copper Options
