TRANSITION TO A CLEAN
ENERGY FUTURE AND
DIVERSE CLIMATE ECONOMY.**

ACT is the largest nonprofit trade organization dedicated exclusively to building and maintaining the climate economy by helping companies, nonprofits, and municipalities grow and scale their business and sustainable operations.

We work across the Northeast and in Canada to find pathways to implement and scale clean energy sources; rapidly expand and modernize our electric grid infrastructure; identify and scale new ways to decarbonize industrial processes, food, large- and small-scale transportation, and buildings; and build the workforce to power every entity doing the work.

TIME FOR
BOLD CLIMATE
LEADERSHIP.**
