

ROYALS HOPE WEEKLY

August 31, 2026

CLASSICAL CORNER

Why Latin Series-Instrument of Education

What now is the instrument best adapted to the attainment of this end? It is language. Language is the supreme instrument in education, i.e., the higher education, because of its universal nature. It promotes intellectual discipline and brings intellectual power, because the study of language brings us at every turn face to face, as nothing else does, with subjects and questions of intellectual concern and intellectual interest.

Language deals with ideas; it touches perpetually on problems of the relations of man to man, of man to society, and of man to the State. The analysis of language demands refined and precise thinking. So long then as ideas are important, and so long as the underlying conceptions that reflect the national life of a people are important, the supreme value of the mastery of these through language study will continue to be recognized.

I thank my God in all my remembrance of you, always in every prayer of mine for you all making my prayer with joy, because of your partnership in the gospel from the first day until now."
