CLASSICAL CORNER

Classical Stories Series-by Jonathan Pageau

Q: *What is so important about symbolism right now, today?*

A: When we talk about symbolism, what we're talking about is basicially the patterns by which the world manifests itself, the patterns by which the world is ordered. That's what we mean by symbolism. There are natural ways and better ways by which we organize our families, societies, and events. There's a reason why we tell stories in certain orders in certain ways, because there are better ways-those that are memorable and strong.

None of the fairy tales that we remember and that we love are arbitrary. None of them. It is not possible. You couldn't remember something arbitrary for thousands of years or even hundreds of years. You remember it because it is tapping into a very deep pattern. You don't have to understand the symbolism for the story to do what it needs to do. Enemies of Christianity have become symbolism experts, and have been able to weaponize symbolism against us and the Christian story. Therefore, if Christians are not able to see the beauty and strength of the stories that are in the Scriptures, and see this beautiful rhythm God put there, that God created, then we are in much more danger of being tricked by the media, the news, movies, and all these things our children end up consuming.
