

Factsheet

Valour Shiba Inu (SHIB) SEK

Introduction

Valour Shiba Inu (SHIB) SEK is an exchange-traded product that tracks the price of SHIB, an ERC-20 token on Ethereum. Shiba Inu was launched in 2020 as a meme coin but has grown into a broader ecosystem with ShibaSwap, Shibarium, and tokens such as LEASH and BONE. It is supported by the global “ShibArmy” community and continues to evolve to expand its use cases within DeFi and digital assets.

Valour Shiba Inu (SHIB) SEK enables investments in this ecosystem in a simple, secure, and practical way, and is available for trading on regulated exchanges through a bank or broker. The product is a structured investment under Swedish law and is traded on Spotlight Stock Market.

Calculating the price of Valour’s ETPs

We calculate the arithmetic mean price of the underlying asset from several major exchanges¹.

Using market rates, we convert the dollar value of the underlying asset into the product currency.

We deduct an annual management fee daily on a pro rata basis.

We apply a multiplier to determine the price of one certificate, ensuring it has an affordable unit price.

¹ The reference price is set using the average price of the underlying asset in USD from several of the most liquid crypto exchanges. The exchanges used may vary depending on their trading volumes.

Why Valour’s ETPs?

Low fees

Some of the most competitive management fees in the market.

Simple and reliable

Invest in digital assets in a similar way to ETFs and shares.

Secure

Traded on regulated exchanges and 100% hedged with the underlying asset at all times.

Transparent

Clear, consistent link between price of the underlying asset and Valour’s ETPs.
