Valour Hyperliquid (HYPE) SEK

Introduction

Valour Hyperliquid (HYPE) is an exchange-traded product that tracks the price of HYPE, Hyperliquid’s native token. Hyperliquid is a decentralised crypto exchange and fast Layer-1 blockchain. It aims to give users the speed and ease of centralised platforms, while keeping everything transparent on-chain. It offers an on-chain order book, almost instant transactions, and trading in spot, margin, and perpetual futures. The network uses its own HyperBFT system for high speed and low delays, while the HYPE token is used for governance, staking, gas fees, and rewards.

Valour Hyperliquid (HYPE) SEK enables investments in this ecosystem in a simple, secure, and practical way, and is available for trading on regulated exchanges through a bank or broker. The product is a structured investment under Swedish law and is traded on Spotlight Stock Market.
